PRICE TWO CENTS

PRESIDENT SAYS HE HAS NO POWER TO PROCLAIM PEACE

MEXICO TO REQUEST TROOPS BE WITHDRAWN

Her Ambassador Said to Have Been Instructed to Protest to U. S. State Department Against Dispatch of Force on Bandit Hunt.

NO ACTION YET TAKEN BY BONILLAS

Matlack Reported to Have Captured Two Outlaws; "Hot Trail" Picked Up; Carranza Troops Co-operate With Our Men.

WASHINGTON, Aug. 21.—The Mexican Ambassador here has been instructed by his Government to protest to the State Department against the dispatch of American troops across the border and to request their withdrawal, according to a statement at Mexico City yesterday.

The statement as received here today said: "Two aviators of the army of the United States, through error, so they state, flew over our territory, landing approximately 112 kilometers to the south of the frontier, where they were captured by a band of 20 bandits. They have now been liberated. Some troops of the Eighth Cavalry of the United States crossed the frontier in pursuit of the outlaws. The Department of Foreign Relations gave instructions at once to our Embassy in Washington to make appropriate representations, protesting and requesting the immediate withdrawal of the invading troops. It was said at the State Department today that no protest had been made by Ambassador Bonillas.

HOT TRAIL OF 2 BANDITS PICKED UP BY CAVALRY

Men Believed to Be Companions of Two Reports dito Have Been Captured by Matlack.

MARFA, Tex., Aug. 21.—As soon as it was sufficiently light this morning to follow the trails, the American expedition in Mexico took up for the third day the chase of the bandits who held two United States Army aviators for ransom. One column picked up the hot trail of two bandits believed to have been companions of the two reported captured yesterday by Capt. Leonard Matlack.

According to an unofficial report brought to the Rio Grande last night the pursuit is continuing over mountain peaks, down steep slopes and through valleys, where spring irrigate little grassy patches of the mountain farmers.

At sunrise airplanes left here for Presidio, 60 miles south, where a flying base for the expedition has been established. Landing there and getting gasoline and oil, the airplane flew across the Rio Grande and along the Conchos River to pick up the trails. The cavalry resumed its work of scouting. Cavalry columns are searching every canyon.

The work of the aviators is considered extremely dangerous, because there are few landing fields in Mexico. It is necessary to fly low, where the bandits may fire on the aviators as they did Tuesday. Flies returning here after dark last night to headquarters here, reported many narrow escapes.

One aviator had flown down a narrow canyon under a shooting rock to see if the bandits were finding concealment from the aviators under a shelf. Another came in with his face covered by red blotches, caused by driving through a hailstorm in Mexico at high speed.

Aviators located all American columns in Mexico yesterday. The fliers also found the Mexican Federal column under Gen. Antonio Pruneda, near Cuchillo Parado. Few landings were made in Mexico.

When the fliers left this morning they carried news bulletins furnished by The Associated Press, which they planned to drop for each cavalry troop operating in Mexico. Gen. Pruneda, with approximately 250 Carranza cavalry troops, camped for the night near Cuchillo Parado.

ACCUSES PARTNER OF CAUSING ARREST ON FALSE CHARGES

Director of Fur Company Sues President for \$20,000 Damages.

Jacob I. Kaplan, a director of the Montreal Fur Co., 707 Washington avenue, today filed suit for \$20,000 damages against Philip Zebelman of 1719 Franklin avenue, president of the company, alleging arrest on false charges.

Zebelman, last Saturday, obtained a restraining order from Judge Hartmann, prohibiting the directors from ousting Zebelman as president. This action, Zebelman said, was to be taken at a meeting called for 2 p. m. Saturday. Zebelman said he owned 85 per cent of the stock of the company.

Kaplan, in his suit, says that he was driving downtown Saturday in an automobile belonging to the fur company, which he had been using daily. At Eighteenth street and Franklin avenue, he said, he was stopped by a policeman, at the instance of Zebelman, and was taken to the Carr street station, where he was questioned as to the ownership of the car. He satisfied the police that he had a right to use the car, and was released.

Kaplan later learned of the restraining order. He charges, in his petition, that Zebelman was trying, by means of his arrest, to keep him from attending the directors' meeting. At that time, it appears, Zebelman did not know that his attorney had obtained the restraining order.

"DRY SALOONS" IN COUNTY LESS POPULAR THAN IN CITY

Only 50 Compared With 70 Formerly, While St. Louis Has 1140, as Against 1025.

The "dry saloon" business is not flourishing in St. Louis County as it is in the city. Whereas there are 1140 saloons in the city, as compared with 1025 up to the expiration of the old licenses last Friday, St. Louis County has only 50, as compared with the previous number of 70.

Licenses are being issued in St. Louis at the rate of about 10 a day; in the county, at the rate of one or two a week. As the county licenses are for six months, thus extending over the date at which prohibition by constitutional amendment becomes effective, a pro rata rebate will be made Jan. 1.

TAKES CHICKENS ON AUTO TRIP

Connecticut Preacher Carries Coops Along on Vacation Tour.

MIDDLETOWN, Conn., Aug. 21.—When the Rev. William D. Beach, pastor of the First Methodist Church, and his family, departed on their vacation in their automobile for North Woodstock, N. H., they strapped their chicken coops on the back of the auto.

"The high cost of living necessitates it," explained the minister, as the car sped over the roads. Rhode Island Reds and White Orpingtons flapped their wings in amazement.

Another August Advertising Record Established!

In Total Paid Advertising the Post-Dispatch exceeded its own August record yesterday, Wednesday, with the tremendous volume of

159 Cols.

This was 9 columns more than the Post-Dispatch ever before carried on any previous weekday in August.

Both National and Home Advertisers were strongly represented as the figures show:

Home-Merchants' Advertising. 72 Cols.
Post-Dispatch alone 3 out of all 4 of the other papers combined. 62 Cols.

National Advertising. 53 Cols.
Post-Dispatch alone 3 out of all 4 of the other papers combined. 55 Cols.

The Post-Dispatch alone came within 2 columns of equalling the Globe-Democrat, Republic, Star and Times, all four put together.

WOMEN IN LINE AS FIRST ARMY FOOD SALE OPENS

More Than 100 on Hand When Tenth Ward Improvement Association Starts Retail Business.

ONLY TOMATOES ARE TO BE HAD

Other Lines of Goods Were Not Available, but Organization Hopes to Increase Line by Tomorrow.

More than 100 women were waiting in front of the store room at 3905 South Broadway, when the first actual sale of surplus army food in St. Louis, as a means of reducing the cost of living, opened there at 9 o'clock this morning. The store room is in one of the busiest shopping and marketing neighborhoods of the South Side.

The Tenth Ward Improvement Association was in charge of the sale, and a volunteer force of unpaid women workers was on hand, ready to supply purchasers with any article they desired, so long as they desired only canned tomatoes. That was the only line of supplies that the Association's purchasing agent was able to get from the Government in time for the opening day's sale.

Tomorrow, or Saturday at the latest, the management hopes to offer a general line of staples, such as has been announced in printed lists of the Government's food offerings.

Mrs. E. M. Bern of 1468 Rowan avenue, who came in an automobile, was the first purchaser. She carried a list which began with the items of bacon, sugar and raisins, but when she learned of the restrictions on the day's sale, she decided to specialize on tomatoes, and bought a can, 24 19-ounce cans, for \$2.16. Mrs. Ira P. Butler was the volunteer saleswoman who waited on her.

Gets Basket Full

Chippewa street, came next, and bought one dozen cans of tomatoes, which she carried away in a basket. The women who followed bought various numbers of cans. Some took only a can or two, saying they preferred to test the goods before investing heavily.

The stock of tomatoes offered was 50 cases, or 1200 cans in all, and the price was 9 cents a can; irrespective of the number of cans bought. This made the sale price of the entire stock \$108. As if to give an object lesson on the cheapness of the Government's goods, a grocery store, two doors away, had in its window an offering of the same brand of canned tomatoes, at 9 cents for a 19-ounce can, only a little more than one-half as large as the can offered by the Government at the same price.

A number of the women wished to

KEEPER OF RAILWAY SIGNAL FOUND DEAD AT POST IN TOWER

Lightning Apparently Caused Death of Man on Duty at Formosa, Ill.

For several hours early today, Edgar Federer, keeper of an electric signal tower on the Vandallia Railroad at Formosa, east of Collinsville, Ill., where many fast passenger trains pass daily, lay dead on the tower floor, apparently killed by lightning.

No trains passed between his death and the discovery of the body at 6 a. m. by a lineman, who had been sent to ascertain why nobody answered the telephone. The telephone was torn from the desk, and the wires to it were burned.

Federer, who was 24 years old, lived with his sister, Miss Ida Federer, who operates the Glendale Hotel at Highland, Ill.

AMERICAN AND GERMAN SAILORS FIGHT, ONE OF LATTER WOUNDED

Several Civilians Also Reported Hurt in Clash of Men at Port North of Danzig.

COPENHAGEN, Aug. 21.—Collisions between German and American sailors, on Tuesday, at Neufahrwasser, resulted in the wounding of several civilians and one German seaman, according to Danzig dispatches received here today.

Neufahrwasser is a seaport, four miles north of Danzig. The disorders grew out of a quarrel in a dance hall Monday night, according to these dispatches. "Americans involved in the disturbance, which was continued in the streets after the sailors left the dance hall, returned to their ship, the destroyer Hale.

On Tuesday seamen on leave from the German cruiser Frankfurt came to blows with American sailors, and it is said civilians also attacked the Americans.

The Americans, supported by French seamen from the destroyer Claymore, charged the crowds. Shots are said to have been fired from the Claymore, wounding four Germans slightly.

Frontier guards dispersed the crowds and the Americans and the French returned to their ships.

VIOLATING LENS LAW OFFENSE ONLY WHEN DONE IN THE DARK

Judge Krueger Rules It Is Not Breach to Drive With Illegal Lights in Daytime.

Judge Krueger of the Circuit of Criminal Correction today decided that it is no offense to drive, in the daytime, an automobile with headlights which do not conform to the city ordinance. It is an offense after dark.

Police Judge Mix has been fining all defendants who have been shown, by police testimony, to have had undimmed headlights on their cars. He has not taken the hour of the arrest into consideration. John J. Johnson of 448 E. Easton avenue, whom Judge Mix fined \$25, appealed to the higher court, on the ground that the arrest was made at 7:25 p. m., before sundown, and the Judge dismissed the case.

FOUR MASKED MEN ROB TRAIN OF MAIL POUCHES IN TENNESSEE

Force Engineer to Cut Off Mail Car and Run Away With Passengers Not Motivated.

NASHVILLE, Tenn., Aug. 21.—Masked bandits held up Louisville & Nashville passenger train No. 7, from Cincinnati to Montgomery, Ala., between Columbia and Pulaski, early today and carried off the mail pouches.

None of the passengers was molested. The robbers, four in number, forced the engineer to cut off the mail car and run some distance with it. Covering the crew, the robbers sent the engine running wild and rifled the mail car, his promise to return to Germany. His wife will go to Germany with him.

GOLIATH IS GIVEN UP AS LOST

CITY TAKES STAND 6-CENT FARE WILL COVER INCREASES

Consulting Engineer Convinced Present Rate Is Adequate to Provide for Higher Wages.

HEARING TO OPEN NEXT TUESDAY

Report Says Proper Administration Will Produce Sufficient Revenue on Present Income.

The policy of the city with reference to the proposed increase in street car fare was made clear today when Associate City Counselor Hamilton said that after studying a report made by C. E. Smith, consulting engineer of the city, he is convinced that the present 6-cent fare is adequate to provide revenue with which to meet the wage increases recently granted to United Railways employees by the Public Service Commission.

This, he said, would be the city's attitude at the hearing before the Commission, which will open at the City Hall next Tuesday.

"We believe the 6-cent fare is high enough to meet all the company's needs," Hamilton said. "We shall certainly strongly oppose an increase to 8 cents and if it becomes apparent that an increase is inevitable, we will vigorously oppose it because we will more than 7 cents."

Should Meet Charges. Smith, in his report, said that with proper administration of the lines, as is to be expected under Receiver Wells, the company should be able to meet its legitimate fixed charges without an increase in the fare.

Smith quoted the company's reports for the year between June 1, 1918, and June 1, 1919, to show that it made \$2,224,611.79 above operating expenses, but paid out in interest charges \$2,604,641.98, leaving a deficit of \$380,030.20.

Charges That Items Misled. Analyzing the company's report Smith said the company's statement of fixed and operating charges is misleading.

In the fixed charges, he said, the company included \$349,795.83 back pay given to employees after the strike of February, 1918, and this should not properly have been charged against the earnings of the year beginning in June 1918.

Smith also said the company should not have included in its fixed charges the payments of interest on the mill tax, as it was expressly provided in the agreement with the city that the mill tax should be charged as operating expenses or argued as a reason for an increase in the fare rate.

It was not proper, Smith's report says, to make it appear that these mill tax interest payments would be a charge for the future, as, under the agreement it was stipulated that the mill tax is to be paid as it falls due, so that in future there will be no necessity for paying interest.

Objects to County Item. Smith also points out that it is not fair to include the \$295,675 deficit in favor of increasing the fare rate on the city lines.

The report also says the United Railways Co., in its report, has charged off more for depreciation than the depreciation actually amounted to. This charge-off, as given in the United Railways report, was \$1,479,623.81. Smith says that an examination of the company's reports from 1910 to 1917 showed that the average annual depreciation was \$750,000 less than the figure now quoted by the company.

The company, he says, has been charging off 10 per cent of the gross earnings for depreciation, but the increase to a 6-cent fare was a 20-per cent increase in the fare revenue, and making allowances for the company's assertion that this did not necessarily mean a full 20-per cent increase in revenue, the charge-off for depreciation should not be more than 8 per cent of the gross revenue. On this basis, he says, the remaining 4 per cent, or about \$570,000, would be available to meet the wage increase.

Sees \$1,260,000 Surplus.

Taking the company's own figures that the fixed charges for the city lines are \$2,540,000, the proper charge-off of depreciation would leave \$1,260,000 surplus over all fixed charges and operating expenses for the year to meet increased wages.

It is also asserted that this did not mean that the company, on its books, has a surplus.

WILSON TAKES NEW STEP TO PUT SENATORS IN HOLE

President Paves Way Also for Appeal to Country on Ground Opponents Want No League.

EMBARRASSMENT FOR SOME REPUBLICANS

Number Really Want Certainty of Power for Peace; Others, in Their Hearts, Opposed War.

By DAVID LAWRENCE. A Special Correspondent of the Post-Dispatch.

COPENHAGEN, Aug. 21.—President Wilson today took another step which tends even more clearly than anything that has preceded to accentuate the issue as between him and the Republican party in the Senate.

He flatly refuses to proclaim a state of peace if the pending treaty is not ratified. His first reason is that he has not the power but that is a question of legal interpretation. But the second reason is along the line of Mr. Wilson's conception of "moral obligations" which he stressed at the Tuesday conference with the Senate Foreign Relations Committee at the White House—he says it would be "a stain upon our national honor which we never could efface if, after sending our men to the battle field to fight the common cause, we should abandon our associates in the war in the settlement of the terms of peace and dissociate ourselves from all responsibility with regard to those terms."

Decision April 7, 1917. The President considers, indeed, that America made her decision on April 7, 1917, when she entered the European war. Then she joined a league of nations aid, if there were any surrenders of sovereignty involved in submitting American troops to the orders of a French commander-in-chief or the American navy to the orders of a British Lord of the Admiralty, that those steps were necessary to put down a common enemy two years ago as they may become the future means to crush another militarist miscreant among the nations of the world.

Mr. Wilson is trying to disclose both by his answers to the senatorial questions on Tuesday and by his announced conception today of our moral union with the allies that the cause of world freedom would have sooner or later drawn us into the European maelstrom irrespective of the attacks on American ships and that, having once become a partner in winning the peace of the world, the United States cannot very well withdraw when the formulas for preserving peace are drawn.

So the President opposes a separate resolution by Congress declaring a state of war at an end and questioning it with the same vigor that he exhibited whenever the nation of a separate peace with Germany was suggested while the war was on.

Many a time it was asked whether the United States, in view of the fact that she never signed any pledge against a separate peace, would feel free to make a separate peace with Germany. But again and again it was stated officially that, while the United States did not consider herself "ally," she was, nevertheless, an "associate," and as such morally bound to act in union with her associates toward the common enemy.

Practically Settles It.

But today's declaration on the part of the President that even, if he legally could do so, he never would proclaim a state of peace in separation of the European associates, practically settles that point.

It also moves the controversy a stage forward. For if the Republican Senators insist on putting reservations in the ratifying resolution, instead of in a separate resolution, as indicated by President Wilson and Gen. Holman of the House, the President could withdraw the treaty from the Senate and announce to the Powers that a new treaty with Germany would have to be drawn, so far as the United States is concerned.

Free to Negotiate Again.

Meanwhile as the Republicans object to Article 1 of the treaty, which contains the covenant of the league of nations, Mr. Wilson would be free to negotiate another pact with the league excluded.

On the other hand, Mr. Wilson, as the chief executive of the nation, has full power to make treaties, and he believes so thoroughly in a league of

2-YEAR SENTENCE FOR PROFITEERING IN HOUSE BILL

Measure Favorably Reported Also Provides for a Fine of \$5000.

WASHINGTON, Aug. 21.—Amendments to the food control act imposing a \$5000 fine and imprisonment of two years for profiteering were ordered favorably reported today by the House Agricultural Committee.

The legislation was proposed by Attorney-General Palmer and extends terms of the act to include among necessities "wearing apparel, containers of food, food or fertilizers, fuel oil and natural gas."

The amendment granting price fixing power to President Wilson was eliminated upon the suggestion of the Attorney-General, who said yesterday that such power was "inapplicable in the present fight against high prices."

Retailers, previously exempted under the act, now are liable to prosecution for violations, but farmers and farmers' co-operative associations are exempted.

The amendment probably will be considered by the House tomorrow.

FORMER GERMAN EMPRESS SELECTED WILHELM'S HOME

"The House of Doorn," Bought by Former Kaiser, Has Only 12 Rooms.

AMSTERDAM, Holland, Aug. 21.—The former German Empress personally selected "the house of Doorn" which Wilhelm Hohenzollern has purchased as the future home in which she and her one-time imperial husband hope to settle down and live the lives of country gentle folk in Holland.

The former Empress has not yet seen "the house of Doorn," but it is anticipated in Amsterdam that she will soon pay a visit to Doorn. Recently he is reported to have been taking carriage rides with Count von Olenstein, the owner of Amerongen Castle. It is declared that he has expressed himself as being anxious for a change in scenery from that within which the Dutch Government has restricted him in his movements.

The former Emperor's secretary, Van Isenman, former Emperor Augustus Victoria decided in favor of the purchase early in August, when she made a visit to Doorn. The house, though rich in history and imposing in appearance, has only 12 rooms in addition to small quarters for servants. It is not expected that the former Emperor will leave Amerongen for three months.

The former Emperor's heart again is troubling her. Dr. Forstner made frequent visits to the Castle of Amerongen yesterday and today.

DISHONORABLE TO ABANDON ALLIES NOW, HE TELLS FALL

Wilson Writes to New Mexico Senator in Reply to 20 Questions That Immediate Ratification of Treaty Would Reduce the Cost of Living Throughout the World.

##

REPUBLICANS REJECT PITTMAN'S INTERPRETATIONS

"Impossible," Says Spencer,
Declaring President Is Mis-
taken as to Sentiment
Throughout Country.

HITCHCOCK DISAVOWS DEMOCRAT'S PLAN

His Position Is That Reser-
vations Cannot Be Consid-
ered Until the Treaty Is
Acted On.

By the Washington Correspond-
ent of the Post-Dispatch.
WASHINGTON, Aug. 21.—The
expected agreement of the mid-
level reservationists with the Democrats
on a program that would quickly
put through the peace treaty and the
league of nations is off for the present.

Senator Key Pittman of Nevada,
by tossing in a resolution of inter-
pretations conforming generally to
the mid-level reservationists, but which
were not to be a part of the ratifi-
cation resolution, has scared away
the senatorial dove of peace.

The President had said there was
no objection to interpretations that
would not require a submission of the
treaty to the other Powers, and in
all probability things would have
worked around to much the same
solution contemplated by the Pitt-
man manifestation, but the time was
not ripe.

The wild—as distinguished from
the mild—Republicans scented the
danger and the Nevada plan was
hardly broached before the uneasy
brethren were all lined up with de-
clarations that they would agree to
no reservations that were not part
of the ratification resolution.

The Nevada Senator says the idea
was all his own; that he conceived
it, and that he saw in the plan
a method of compromise that the
mild ones could not oppose if they
were sincere.

Mr. President's Views.
"The President did not initiate the
resolution," said Pittman, "but he
approved of it, and saw in it his views
outlined to the Foreign Relations
Committee. If the men who advo-
cated the resolution accepted their
my resolution, the matter of the treaty
will have to be fought out on the
original lines. If they had their
way the treaty would have to go
back to Germany and to the state-
ment of Powers and nobody can tell when we
will see the end of it."

The missionary work of Senators
Walsh, Simmons and others who
have been advancing the compromise
will have to be done within ten days.
After that the light will be made
by advocates of the treaty for its
ratification without change. My
position as to reservations is that
we cannot consider them until we
have acted upon the treaty.

"I was not consulted by Mr. Pitt-
man as to the interpretative reser-
vations he has suggested, and there
has been no conference that I know
of upon them. I understand they are
his own. I am not willing at this
time to say that I would vote for any
reservations."

Pittman was closely cross-exam-
ined by Senators Poinsett, Reed
and others regarding the purpose and
scope of his resolution. He said it
would form a good basis for com-
promise, when the proper time ar-
rived, and thought it might solve
the existing problem.

Impossible, Says Spencer.
All those Republicans classified as
mild reservationists at once hastened
to make it clear that they will not
subscribe to the plan advocated by
Pittman. All of them, without ex-
ception, announced that they would
insist on reservations as a part of
the ratification.

"The resolution proposed by Sen-
ator Pittman will never be adopted,"
said Senator Spencer of Missouri. "It
is impossible. The sooner the Presi-
dent realizes that he must get down
to a real, genuine, American-protec-
tion reservation and not jeopardize
the treaty further, the better it will
be. Every day he delays getting
back of American safeguarding reser-
vations he endangers the league of
nations and the treaty."

"He is mistaken about sentiment
for the league increasing and pres-
sure resulting on Senators. It is cer-
tainly not so in my State. An inter-
preting clause such as introduced by
Senator Pittman would be absolutely
useless. It would be like a man

President Says He Has No Power to Declare Peace

opinion that the immediate
adoption of the treaty, along with
the articles of the covenant of the
league, written, would certainly
within the near future reduce
the cost of living in this country
as elsewhere, by restoring pro-
duction and commerce to their
normal strength and freedom.

For your convenience, I will
number the remaining paragraphs
of this letter as the questions to
which they are intended to reply
are numbered.

Seven—I have had no official
information as to whether Nor-
way, Sweden, Denmark, Holland,
or Switzerland, will join the league.

"8. I answered your eighth
question in reply to a question
asked me at our conference the
other day. (This question referred
to licensing of exports to Ger-
many.)

"9. In February, 1917, Spain
was requested to take charge of
American interests in Germany
through her diplomatic and con-
sular representatives, and no other
arrangement has since been made.

"10. The committee to prepare
plans for the organization of the
league, for the establishment of
the seat of the league, and for the
proceedings of the first meeting of
the assembly, has been appointed,
but has not reported.

"11. Article 118 of the peace
treaty, part IV, under which Ger-
many renounces all her rights to
territory formerly belonging to
herself or to her allies, was under-
stood, so far as special provision
was not made in the treaty itself
for its disposition, as constituting
the principal authority by which
such disposition should ultimately
be determined. It conveys no title
to those Powers, but merely en-
titled them to question the resolu-
tion in question to their decision.

"12. Germany's renunciation in
favor of the principal allied and
associated Powers of her rights
and titles to her overseas posses-
sions is not at all similar to oper-
ating in vesting in those Powers a final
disposition with respect of their final
disposition and government.

Provisional Agreement.
"13. There has been a provision-
al agreement as to the disposition
of the overseas possessions whose
confirmation and execution is
dependent upon the approval of
the league of nations, and the
United States is a party to that
provisional agreement.

"14. The only agreement with
France and Great Britain with
regard to African territory of
which I am cognizant con-
cerns the disposition of rights
already possessed by the United
States to that Continent. The pro-
visional agreement referred to in
the preceding paragraph covers
all the German overseas posses-
sions in Africa as well as else-
where.

"15. No mention was made in
connection with the settlement
of the Saar basin of the service
of an American member of the
commission of five to be set up
there.

"16. It was deemed wise that
the United States should be rep-
resented by one member of the
commission for settling the new
frontier lines of Belgium and
Germany because of the new
opinion that America's
representative would add to the
commission a useful element of

signing a lease and saying at the
same time he thinks he is paying
two too much."

Senator Pittman proposed in a
speech in the Senate that the resolu-
tion be adopted at once and submit-
ted to the other Powers who will be
represented by the League of Nations.
A general debate developed during
which Senator Borah and others took
exception to President Wilson's dis-
tinction between moral and legal
obligations under the covenant.

In his argument that reservations
should not be incorporated in the
ratification itself, Senator Pittman
declared Germany was awaiting an
opportunity to attack hundreds of
reservations, and that to reopen the
subject would submit the United
States to a needless risk.

Senator Owen also introduced a
resolution yesterday carrying inter-
pretations. The resolution de-
clares "that the Senate,
in ratifying the treaty of peace with
Germany, has done so with the un-
derstanding that the meaning and
purpose of this ratification is as fol-
lows: Eight reservations then are
expressed, covering domestic ques-
tions, the right of Congress to decide
questions of peace or war, an un-
conditional right of withdrawal, the
Monroe Doctrine, the understanding
that Japan will withdraw speedily
from Shantung, rapid reduction of
armaments, just treatment of national-
ities and a stipulation that the
league shall interfere in internal
revolution or boundary disputes only
in exceptional circumstances.

McCormick Assails Powers.
An attack on the Shantung pro-
vision of the treaty was made in the
Senate yesterday by Senator McCor-
mick, Republican, of Illinois, who as-
serted that by accepting the provision
the United States would become a
party to one of the most outrageous
exhibitions of imperialism and vul-
garity in the world's history. The
Shantung provision also was under
consideration before the Foreign Re-
lations Committee, which was told by
Dr. C. P. Mondak, adviser to the
Chinese President, that China re-
garded American acceptance of the
settlement as a deviation from the
traditional policy of American
friendship to the Chinese Govern-
ment and people.

"Japan twice broke her solemn
undertaking with the United States,"
said Senator McCormick, "and, in de-
liberate, secret violation of her other
international engagements, sought to

entirely disinterested judgment.

Saar Basin Provision.
"17. The choice of the com-
mission for the Saar basin was
left to the council of the league
of nations because the Saar ba-
sin is for 15 years to be directly
under the care and direction of
the league of nations.

"18. Article 83 does in effect
provide that five of the members
of the commission of seven to fix
the boundaries between Poland
and Czechoslovakia shall be
nominated by certain countries be-
cause there are five principal allied
and associated Powers, and the
domination of five representatives
by those Powers necessarily means
the nomination of one representa-
tive by each of those Powers.

"19. No such commission has
yet been appointed. (The commis-
sion referred to that for the fix-
ing of the Polish boundaries.)

"Twenty—It was deemed wise
that the United States should have
a representative on the commis-
sion for settling the new frontier
lines of Belgium and Germany.

Sincerely yours,
WOODROW WILSON.

Pittman Plan to Lie Over.
Democratic Senate leaders appar-
ently divided over the expediency of
the compromise proposal for peace
treaty reservations separate from
the ratification, decided today not to
press for action the resolution of
Senator Pittman, Democrat, of Nevada,
embodying the compromise
plan. The impression was given that
the measure probably would be per-
mitted to lie over indefinitely.

The decision was taken after Sen-
ator Pittman had made it clear that
in introducing the resolution he
acted on his own initiative, and after
Senator Hitchcock, the administra-
tion leader, had indicated that it
was not to be considered as inspir-
ing by the administration.

Meantime, the Republican leaders
said they were ready for a vote, de-
claring the Republican group, which
favors reservations, but wants them
incorporated in the ratification itself,
would line up against the resolution.

Only One Democrat Attends Meeting
of Committee.

WASHINGTON, Aug. 21.—Dr. J.
C. Ferguson, adviser to the Presi-
dent of China, told the Senate For-
eign Relations Committee that while
there was a difference between the
Chinese text of the Lansing-Ishihara
agreement as made public in Peking
by the Japanese and American legations,
he attached "no importance" to
the circumstances because the En-
glish text was recognized as official.
He said that while the English text
recognized Japan's "special interest" in
China, the Japanese translation
gave the idea also of a "special in-
fluence."

The witness expressed belief that
the guarantee of "regional under-
standings" in the league of nations
covenant might involve "an indirect
endorsement" of the Lansing-Ishihara
agreement by the Senate. An hour
after the committee met, Senator
Knox, Republican, of Pennsylvania,
remarked that Senator Swanson of
Virginia was the only Democrat
present, and that he had suggested
that "we send out for some of our
Democratic brethren to help expedite
the treaty."

raged Chinese made futile resistance
against aggression in the boxer up-
rising. That uprising, that siege, are
emblems of the years to come, when
either the 400,000,000 Chinese, once
subjected to Japan, may be mar-
shaled against the republic which
betrayed them, or, resisting subju-
gation, they may rise to drive the
invaders from the Eastern shores
of Continental Asia. Then, under the
terrible tenth article of the covenant
of the league, we shall be called upon
to send forth our young men by the
million, in defense of the Japanese
dominions on the further shores of
the Yellow Sea.

which we are asked to approve guar-
antee the territorial acquisitions of the
three principal powers holding
dominion over subject peoples—
Britain, Japan and France.

civilization of the British Empire
has brought peace to millions, but
that has been a policeman's peace.

FERNALD ATTACKS U. S. CONTROL OF INDUSTRY

Maine Senator Calls Proposed
Legislation Aimed at Packers
"Stifling, Throttling."

By the Associated Press.

WASHINGTON, Aug. 21.—An at-
tack on Governmental tendency to-
ward assuming control of business
enterprises, with special reference
to proposed legislation for super-
vision of the packing industry, was
made today by Senator Fernald of
Maine, speaking in the Senate.

Stamping the keynote and Kendrick
bills, vehicles of the packer legis-
lation now under discussion, with
examples of "stifling, throttling leg-
islation," he declared his opposition
to them, said they were extensions
of the policy which had failed in
the transportation and communica-
tion industries, and predicted that
the public would suffer from higher
costs and poorer service should they
be enacted.

"I cannot believe the Senate of
the United States feels after the ex-
perience we have had with Govern-
ment control of railroads, telegraph
and telephone lines, that the policy
should be extended to the packing
industry," he said. "It would certainly
lead to chaos and bankruptcy. In be-
half of the business men of the country,
who have had as much to do with
making our country great as any
class of citizens, I want to protest
here and now against this proposed
legislation. It is filled with danger
to our institutions, and our system
of Government. It is Socialistic, it
is un-American and it should be de-
feated."

Defends Packers.
Defending the packers, Senator
Fernald said their business had to
be conducted in large scale in order
to be economical. Their develop-
ment of refrigerators and ownership
of stockyards, like their utiliza-
tion of animal by-products, consti-
tuted a valuable service, he said.

"One of the most notable results
of by-product utilization is the fact
that all the meat from a steer can
be sold by the packer for much less
than he pays for the live animal,"
he said. "The result is that the pack-
er in 1918 paid on an average of \$2.70
a head for cattle and sold the meat
for \$21.45 a head. For by-products
\$22.08 a head was received. Thus
\$10.81 covered the expense on each
head, and figures show the profit
per head was only \$10.62."

"To my way of thinking the dis-
covery made by the packers that by-
products that were thrown away
could be sold for profit was the great
achievement of modern times. When
the proposition to curb the packing
industry is viewed in its proper light
I think it will be found that the
present organization of the industry
really is the best that has been
developed in this country and results in
efficiency."

He attacked the Federal Trade
Commission for "questionable meth-
ods" in its investigation and report
on the packers, and said that it had
very largely lost sight of its function
to aid and guide business.

"The commission," he asserted,
Senator Fernald, "failed to get any evi-
dence of the industry. It is only by
confidential methods, by misinterpreta-
tion and misstatement of facts that it
was able to come to the conclusion that
there is combination in restraint of
trade. This report, so far as I have
been able to investigate it, contains
no evidence of monopoly. I am re-
ligiously informed that the commission
in some instances actually used only
such parts of telegrams taken from
the files of the packers as appeared
to best suit their purpose. It is a
disgrace to the name of the Federal
Trade Commission laws give ample
power to suppress such illegal
operations."

Complaints of wholesale grocers
that the packers were passing on to
the public the cost of the war in the
field in the sale of perishable goods
he classed as unjustified, with the
remark that the same complaint
might be made against the grocers
for passing on to the public the cost
of handling drugs, hardware and
other goods out of their line.

"It is unthinkable that Congress
should give the Government power to
suppress such a concern may or may
not handle as it should be able
to do under proposed legislation. In-
stead of attempting to make big
business little, let us all pull together
to make little business big. Remove
the shackles from business interest
and let them do their own thing. Let
each work out in his own way the
great industrial problems before us."

200 LANDLORDS ACCUSED
Chicago Committee Files Complaints
Against Alleged Profiteers.

By the Associated Press.
CHICAGO, Aug. 21.—Two hundred
cases of alleged profiteering land-
lords were filed with the Board of
Review today by the council com-
mittee appointed to investigate cases
of excessive rents. The cases taken
advantage of the shortage of apart-
ments. The plan is to have the Board
of Review increase the taxes of
those landlords who have increased
rents unjustifiably.

PRESIDENT TAKES ANOTHER STEP TO PUT SENATE IN HOLE

Continued From Page One.

nations that the only result of a
Senate disapproval of the treaty, as
Mr. Wilson presents it, which can
now be foreseen, is a state of chaos
so far as the legal relations of the
United States and the rest of the
world are concerned.

Unless Mr. Wilson absolutely re-
verses himself therefore, the struggle
between him and the Senate must
center for the next week or month
entirely on a simple question of pro-
cedure. The President holds most
of the cards—the Constitution gave
him a big advantage in being able
to sign a treaty and then peace treaty.
It is not like a domestic law that
can be passed over his veto by two-
thirds vote.

No such conflict between the ex-
ecutive and legislative branches of
the Government, and so many points
in the treaty, has occurred before,
and the legal consequences
are enough to make many interna-
tional lawyers rich in fees for years
to come. Commercial as well as
financial interests will be subjected
to varied interpretations.

Events in Three Days.
But the events of the last three
days have done something more be-
sides revealing definite lines for
the struggle. President Wilson has
in the treaty. Mr. Wilson has, to be sure,
paved the way for his appeal to the
country on the ground that his op-
ponents want no league of nations
whatsoever.

This has been an embarrassing
position for the President. He has
been forced to reveal the fact that
the Republicans, as some of their
number really want a concert of
power to maintain peace, and the
famous fifth paragraph of the Knox
resolution, which pledged the United
States to make common cause for a
world peace whenever an emergency
threatened, still represents the view
of many Republicans.

Others will never give up their
Sovereignty to further association
with Europe and will even vote
against the Franco-American treaty.
Some of these men are consistent.
In their hearts, they really opposed
the war with Germany, and they did
not want an alliance with Europe
that any more than they do now.
But many members of Congress vot-
ed on the war resolution as many of
them did on the prohibition question
because they feared an invasion of
the United States by aggressive na-
tions. They didn't vote their personal
convictions.

So today a large class is really
giving vent to pent-up views about
getting into Europe's affairs.
President Wilson, however, dis-
closes that he believed our partici-
pation in the war was inevitable, re-
spective of attacks on American
ships. He saw the necessity of
American partnership with other
world Powers. He believed America
owed it to herself and civilization to
go in when she did and now that
she is in, he believes she should
stay in and see it through.

Otherwise her investment of 150,-
000 American lives in the soil of
France and \$20,000,000,000 from the
pockets of American taxpayers will
have been of doubtful value for the
guarantee or assurance of further
peace will, in Mr. Wilson's opinion,
be lacking, and the probability of
another such great drain on human
resources to crush aggressive nations
in the future will not have been re-
moved.

What Issue Is Becoming.
Strategically the Republicans are
right. It is only by confidential meth-
ods, by misinterpretation and mis-
statement of facts that it was able
to come to the conclusion that there
is combination in restraint of trade.
This report, so far as I have been
able to investigate it, contains no
evidence of monopoly. I am reli-
giously informed that the commission
in some instances actually used only
such parts of telegrams taken from

to best suit their purpose. It is a
disgrace to the name of the Federal
Trade Commission laws give ample
power to suppress such illegal
operations."

How to Pay Remainder of Ransom
Money to Bandit a Problem.
CANDELARIA, Tex., Aug. 21.—
Mexican newspapers received here
announcing Gen. Dickinson's trip to
Candelaria, possibly to Candelaria
in connection with payment of the re-
mainder of the \$15,000 ransom for
Aviators Peterson and Davis have
created discussion as to how and to
whom the remainder of the ransom
could be paid. After securing the
release of Lieut. Peterson, Monday
night, Capt. Leonard Matlack es-
caped with Lieut. Davis without pay-
ing the remainder of the ransom,
amounting to \$5,000. Capt. Matlack
returned the money to H. M. Fennell,
the Marfa banker, who brought the
ransom here.

According to newspaper reports,
the United States wants the total
amount of the ransom delivered to
the bandit Renteria, whose band is
being pursued in Mexico by Ameri-
can cavalry.

As far as known no associates or
relatives of Renteria live near the
border. Dawkins Kilpatrick, a
storekeeper mentioned in the mes-
sages the aviators were forced to
write asking for ransom, refused to
have anything to do with the trans-
action. Kilpatrick, who now is with
the American cavalrymen acting as a
guide, declared he knew nothing
about the matter. It is not believed
here that Kilpatrick would consider re-
ceiving the money for the bandits.

Capture of Bandits Who Attacked
U. S. Sailors Announced.

WASHINGTON, Aug. 21.—
Gen. Barragan, chief of the Mexi-
can presidential staff, has notified
the embassy here that the special
police force of Tampico and the pe-
ninsular zone on Monday captured
the "group of bandits" which recent-
ly attacked American sailors from the
gunboat Cheyenne. The same
bandits, the telegram said, had at-
tacked oil launches of the Texas Oil
Co., the Aguila company and the
Trans-Continental company.

Agents of the police force, it was
said, had left for Valles, San Luis
Potosi, to investigate the murder of
Peter Catron, the American citizen

REPLY TO PROTEST OVER COAL CARS CALLED BUNK

Statement Says Transfer to East
Was Ordered Where Sur-
plus Exists.

By the Associated Press.

The reply from the Car Service
Section of the United States Railroad
Administration to protests against
the diverting of coal cars from Illi-
nois coal-carrying lines to designated
junction points, to be taken East for
the use of Eastern lines in hauling
coal, that the only diversion had been
ordered where there was a surplus
of cars in the Western region, was
characterized today by E. J. Wal-
lace, acting secretary of the Mis-
souri Retail Coal Merchants Asso-
ciation, as "pure bunk."

"That is a stereotyped reply sent
out in response to all protests and
it means nothing," said Wallace. "It
was written by some functionary in
the Railroad Administration who
does not know what he is talking
about. What does he mean by a
surplus of cars? If he is referring
to the thousands of cars around St.
Louis that are laid up for repairs
or the cattle cars that are standing
idle, it is not helping to solve the
coal situation. Those cars cannot
be used for hauling coal."

"There is a shortage of coal cars
in the Illinois coal field," said Wal-
lace, "and I know what I am talking
about. The mines in the Standard field
reopened today, after an idleness of
two weeks caused by the miners' strike,
and there were no cars on the
Illinois Central lines to handle
the coal. The usual coal-shipping
line, amounting to about 300 or
400 cars, had been transferred to
the Baltimore & Ohio lines."

It is said that if Western cars are
taken East at this time, the delay in
obtaining their return will make it
impossible for the Illinois mines
and railroads to supply the demand
which will set in with the early fall.

185 UNION LOCALS TO PARTICIPATE IN LABOR DAY PARADE

Grand Marshal Announces Plans for March and Picnic Sept. 1—55 Bands Will Be in Procession.

100 FLOATS TO HAVE PLACES IN LINE

Two Hours Estimated as Time Required to Pass Reviewing Stand of Mayor Kiel and Other Officials.

The complete program for the Labor day parade and picnic, Monday, Sept. 1, was announced today by Grand Marshal James W. Williams, secretary of the Carpenters District Council and treasurer of Central Trades and Labor Union.

There will be 185 union locals represented, divided in seven divisions, in which will be interspersed 55 bands and two drum corps and more than 100 floats. It is estimated the parade will be about two hours passing a given point. The route will be as follows:

Formation at Twelfth and Chestnut streets, East on Chestnut to Broadway, north to Washington avenue, west to Twelfth street, south to Locust street and west to Leffingwell avenue, where it will disband.

The parade will be reviewed from a stand in front of the Building Trades Council, 2651 Locust street, by Mayor Kiel and other city officials and heads of labor organizations.

A picnic will follow at Forest Park Highlands, where Maj. Harry B. Hawes will speak from the bandstand at 4 p. m.

Leaders in union labor circles here pointed out that the Labor day parade was never so solidly united or strong as it is this year. The bricklayers, masons and plasterers, about 3500 in number, recently voted to affiliate with the Building Trades Council, closing a breach made 15 years ago when these crafts withdrew from the council, and thus giving the council a 100 per cent organization of the building trades.

The strength of unionism at this time, they say, is evidenced by the fact that virtually every trade has received substantial increases in wages, shorter hours and improved working conditions within the last two years, the best example being the case of the street car men, whose wages were increased more than 90 per cent in the last 18 months.

David Krejling, secretary and organizer of Central Trades and Labor Union, estimates that St. Louis now has about 100,000 workers affiliated with the American Federation of Labor, as compared with 70,000 before the war.

Grand Marshal Williams said one of the most striking demonstrations of the parade will be the turnout of brewery workers as a final protest against the law prohibiting the manufacture of beer, and another feature will be the contest for honors among the floats of the Teamsters' District Council, who will have most of the floats.

The unorganized workers of St. Louis among the spectators will be invited to view in this parade a class of workers who get real salaries for muscle—the Amalgamated Association of Iron, Steel and Tin Workers. They work under great heat but receive from \$12 to \$22 for the 8-hour day, and are the highest paid workers in organized labor in St. Louis. There are about 1300 of these workers here.

For the first time St. Louis will see a letter carrier in a Labor day demonstration. Postmaster Selph has agreed to call it a holiday for the carriers after the first mail delivery, which will allow them time to join the parade.

City Firemen to Be Represented.—As many city firemen as can be spared will march to give representation to their union. They and others who have to work that day, such as waitresses, the printing press, barbers, cooks and moving picture operators, so they will be among the first to demand and return to work.

Nearly all the groups will be distinctively garbed, and most of the women in trades unions will ride in decorated automobiles.

Two bombs fired on the city hall lawn at 4:45 a. m. will be signal to form in line, and one bomb at 6 o'clock will start the march. Grand Marshal Williams will lead the parade, attended by his aides, who will be Joseph E. Worack, president Central Trades and Labor Union; Sam E. Snyder, Photo Engravers' Union; Fred Altheide, Carpenters' Joint Council; John H. Anderson, president of the Fire Light Union; and Paul J. Morris, president of the Bridge and Structural Ironworkers' Union.

They will wear blue serge trousers with black belt, white shirts, black hats and white hats, and will be mounted on white horses. The delegates to Central Trades and Labor Union, about 400, will follow on foot.

The following trades and divisions will follow in the parade: First Division—Building craftsmen from 33 locals, including the Women's Auxiliary of the Carpenters' Union.

Second Division—Allied Printing Trades, 27 locals; waitresses, bartenders, cooks, pastry cooks, theatrical brotherhood, moving picture operators, switchmen, bankers, the Women's Trade Union League, musicians and musical instrument makers and

STREET CARMEN'S UNION RAILWAY MEN TO BE IN LINE

Third Division—Brotherhood of Railway Employees, composed of railway clerks, carmen, coach cleaners, maintenance of way men and shopmen, followed by the Amalgamated Association of Iron, Steel and Tin Workers.

Fourth Division—Boot and Shoe Workers' Joint Council, United Metal Workers, Car Wheel Molders and the Label Traders' Section, consisting of the Women's International Label League. The second section of this division will include all crafts of the city, including the city fire fighters, with the Ammonia Workers' Union, soap makers, wholesale house employees, broommakers, paper product employees and building service employees bringing up the rear.

Fifth Division—Metal Trades Council, headed by the iron molders, foundry employees, metal polishers, patternmakers, boilermakers, sheet metal workers, car wheel molders and six locals of machinists. Upholsterers and retail furniture clerks will follow.

Sixth Division—Brewery Workers' Joint Council and all crafts of the Brewery Workers' and Soft Drink Makers and Bottlers' Union; glass bottle blowers, coopers, tobacco workers, cigarmakers, letter carriers, postal and Federal employees and barbers.

Seventh Division—Twelve local unions of the Teamsters' Joint Council and one local of the Horseshoers' Union.

CONFERENCE MAY AVERT STRIKE

Success of Meeting With Steel Corporation to Determine Men's Action.

By the Associated Press. YOUNGSTOWN, O., Aug. 21.—On the success of leaders of 24 labor unions affiliated in the steel industry in obtaining a conference with Steel Corporation during the next 10 days, depends whether there is to be a nation-wide strike of steel workers.

Union leaders who canvassed the strike vote here yesterday, say that 98 per cent of the men voting on the question, voted to walk out.

More than 4000 mail orders for the Government food, amounting to \$44,000 or more, have been received by letter carriers and at branch postal stations within three days. Postmaster Selph announced today. Yesterday's orders fell below those of Tuesday, probably because of the rain. The delivery of the food by parcel post is expected to begin within a few days.

The Postmaster said he wished to receive reports on any refusal of a carrier to furnish price lists and order blanks in connection with the food sale. ACCUSED OF OPERATING LOTTERY

Police Court Summons Is Issued Against Restaurant Keeper. Associate City Counselor Sadler today issued a police court summons charging Edward Benish, a restaurant keeper in the basement of the Chemical Building, Eighth and Olive streets, with operating a lottery.

The warrant alleges that on Aug. 14 and Aug. 19 Benish gave to detectives of the gambling squad tickets for a drawing for an automobile which will be given to the holder of a ticket bearing a number to be drawn by lot next Christmas. The summons is returnable Sept. 5.

Illinois Farmer Killed by Lightning. CHESTER, Ill., Aug. 21.—Henry Donjon, 21 years old, a farmer, residing near Prairie du Rocher, north of Chester, was killed by lightning yesterday afternoon while at work in the field. His brother, standing by his side, was uninjured.

LANDLORDS CHARGED WITH VENGEANCE PLOT

Members of Real Estate Exchange Accused of Agreeing to Eject Complaining Tenants.

A charge that members of the Real Estate Exchange had agreed to give 30 days' notice of removal to any tenant who complains to the City Complaint Board of an increase in rent, was made in one of 15 letters received by the board this morning.

The letter was written by the secretary of the board, and the charge could be investigated. John H. Farish, president of the Real Estate Exchange, when told of the charge by a Post-Dispatch reporter, said: "There is absolutely no truth in such a statement. I would know if any such agreement existed, and there is none. The exchange has taken no action, and there has been no private agreement among any considerable number of the members of the board."

The 15 complaints received today made a total of 41. They were in the same tone as the letters of previous days. Some of the writers said that the owners, while increasing rents, had refused to make repairs, though the increased cost of repairs is one of the chief pretexts offered for raising rents.

Four families living in flats on San Francisco avenue, wrote that their rent had been raised from \$16 to \$20, and that they had to store coal in a leaky shed, where the coal deteriorates into slack. They also said there was no sidewalk in the front yard.

Three families on Labadie avenue wrote that their rents had been raised from \$20 to \$22.50, and that they expected another raise. Four tenants on Arlington avenue told of an increase from \$23 to \$25, and a notice of a second increase to \$30. A Union boulevard apartment tenant tells of an increase from \$50 to \$60, and says no repairs have been made.

A tenant on South Grand avenue says the increase has been from \$65 to \$90, and that no repairing has been done for two years.

A Lafayette avenue tenant writes that he is now paying \$35 instead of the former \$30, and has been notified that the rent will be \$55 after

Oct. 1. A complainant who does not sign his name, or give his address, but gives the names of owner and agent, says he has been raised from \$42.50 to \$45, and has had notice of an increase to \$60, but that he is afraid to appear as a complainant, as he knows of no place to go if he should get notice to move.

Maurice J. Cassidy, a member of the Complaint Board, and Associate General Manager of the city, said today that the Chamber finally had come into the open as a partisan of the company, and no longer pretended to be an impartial body.

Belleville Mayor Withdraws. Mayor P. K. Johnson of Belleville, in a letter to Mayor Stephens of East St. Louis, today withdrew his support of the Mayor's conference because of the action of the other Mayors in supporting the strike's claims. He said that when the international union officers said today that the Mayor's conference was going over the assessment lists to see how the income of owners from their property, in places where rents have been increased, correspond with the present assessed valuation. The purpose is to increase taxes in cases where the income, at the new rental rates, indicates a greater valuation than that formerly fixed.

Mercantile Trust Co. Buys Bonds. DEXTER, Mo., Aug. 21.—The County Court at Bloomfield sold \$285,000 road bonds to the Mercantile Trust Co. of St. Louis yesterday for \$27.07. Caster Township voted \$95,000 in road bonds.

Lost Her Bag On Street Car—Recovered It Through a "Want" Ad. If you have ever left or lost anything on a street car and discovered the fact after the car has bowed along down the rails and out of your sight, you will doubtless recall that a feeling of "goneness" sidled up to you, leered into your face and mumbled a few words from that old familiar song, "Good bye, sweetheart, good bye."

Thus it was in the old days. Not so in recent years, since St. Louis' One Big Lost and Found Medium has changed chance to certainty with its circulation extending into nearly every home hereabouts.

All of which is best illustrated by this note from Miss Grace Roden of 1857.07, boulevard: "Post-Dispatch, St. Louis, Mo. 'Gentlemen: 'Through this little ad in your valuable paper, 'BAG—Lost, black leather bag on Kirkwood-Perguson car, Saturday, 5:30 p. m.; reward, Grace Roden, 1858.04. Page, Delmar 424.' 'I was able to locate my bag which was found by a Mrs. Melre of 1261 Amhurst place, who was honest enough to return it. 'SOME PAPER. 'YOUR TRULY, 'GRACE RODEN.'"

Confidentially: The Post-Dispatch publishes about 400 Lost and Found Ads every week—nearly twice as many as the four other local newspapers combined! Do you wonder?

EAST ST. LOUIS CARMEN REFUSE TO GO TO WORK

Decline to Obey Instructions Calling Off Walkout, Sent by Head of Amalgamated Association.

DEMAND VISIT FROM UNION PRESIDENT

Insist on Continuing Strike Until He Replies to Telegram Telling Him He Has Been Misinformed.

Striking carmen of the East St. Louis & Suburban Co. yesterday refused to obey instructions that they return to work, sent to them by William Mahon, president of the Amalgamated Association of Street and Electric Railway Employees, through Frank O'Shea, vice president of the association.

They voted instead to remain out at least until they receive a reply from a telegram which they sent to Mahon, urging that he personally visit East St. Louis and investigate the situation.

The instructions were delivered by O'Shea at a meeting in East St. Louis yesterday afternoon, although they were received by him Monday night.

The telegram sent to Mahon by the local leaders follows: "O'Shea delivered your instructions at joint meeting of three locals. Action taken follows: We demand you come to East St. Louis and make personal investigation. We think you are not fully acquainted with the situation. Mass meeting of Mayors and Chamber of Commerce, Council and Chamber of Commerce committee endorsed our demands."

The reference in the telegram was to resolutions passed at a mass meeting at the city hall Tuesday afternoon, and attended by several Mayors, in which the demands were upheld.

The special committee of the Chamber of Commerce last night telegraphed Mahon that it did not support the strike, that it felt the men were not justified in striking, and urged that he order them to return to work at once.

Intensifies Strong Feeling. This intensifies the already strong feeling of the strikers against the Chamber, which they previously had accused of taking the company's side in the controversy. Union leaders said today that the Chamber finally had come into the open as a partisan of the company, and no longer pretended to be an impartial body.

Belleville Mayor Withdraws. Mayor P. K. Johnson of Belleville, in a letter to Mayor Stephens of East St. Louis, today withdrew his support of the Mayor's conference because of the action of the other Mayors in supporting the strike's claims. He said that when the international union officers said today that the Mayor's conference was going over the assessment lists to see how the income of owners from their property, in places where rents have been increased, correspond with the present assessed valuation. The purpose is to increase taxes in cases where the income, at the new rental rates, indicates a greater valuation than that formerly fixed.

General Manager Parsons of the company today blamed the Mayors for taking part in the mass meeting. He said he was convinced the men would have been back at work today but for the moral support they received from the Mayor's endorsement since the strike began.

A conference was held this morning between strike leaders, company officials and some of the Mayors in the office of Mayor Scumlin, but it was not considered possible that any headway toward a settlement would be made until a reply from Mahon is received.

The strike has been in progress since last Friday morning, completely tying up the East St. Louis, Alton and Belleville city lines, and the interurban lines running out of East St. Louis. No cars have been operated since the strike began.

Both Sides Are Firm. The situation now is more confused than ever. The Mayors of several cities are on record as approving the demands of the men, and the Chamber of Commerce Committee also promised the men several days ago that if they would return to work the committee would use its influence in aiding them to get justice.

The strikers themselves are standing firm. Apparently a great majority of them are intent on staying out until their demands are met. The company, strengthened by the attitude of O'Shea and the Chamber of Commerce committee, also is taking an uncompromising attitude.

STRIKE TIES UP NASHVILLE CARS

By the Associated Press. NASHVILLE, Tenn., Aug. 21.—Street car service throughout the city was entirely suspended today as a result of the strike of conductors and motormen of the Nashville Railway and Light Co., which began last night at 8 o'clock. The company attempted late last night to operate a few cars with non-union employees but the cars were attacked by union sympathizers and the effort was quickly abandoned.

The strikers demanded reinstatement of all employees discharged for joining the union, return of union men to their old runs and recognition of the right of the men to organize.

PERSONAL BEAUTY WILL DETERMINE WINTER STYLES

Women May Have Any Kind of "Silhouette" and Still Be Fashionable.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, Aug. 21.—This is the land of the free and the home of the brave, and you may have any kind of a "silhouette" that you think is becoming next winter and still remain a woman of fashion. In other words, consult your own type of beauty in having your clothes made.

The general tendency will be toward long straight lines. The coats of suits will be a trifle longer, the skirts of evening dresses a trifle shorter—quite short if you have a pretty face and ankles. Russian blouses will be good and your tailored suits may abound in rilly ruffles.

Such is the verdict of the fashion show which opened yesterday in the Ritz-Carlton ballroom under the auspices of the Shelton Looms and Associated Manufacturers, and will continue today and tomorrow.

The purpose of the show, as expressed in the catalogue, is "first to stimulate interest in garments of American design, made from textiles of American manufacture." A special feature is an exhibit of more than 50 coats of cloth which closely imitates the textures of the popular furs. Imitations of mink, chinchilla, Persian lamb and seal skin were shown alone and in combination with real fur. A few of the garments were of cloth of American manufacture made up by Paris designers.

A group of unusually pretty models displayed the beauties of the garments yesterday. A riding habit of black and white, with black leather facings, a velvet dressing gown with a little cap and an evening gown of velvet, "illuminated" in color by hand, were among the costumes that elicited most applause from the large assemblage of buyers.

FIVE MEXICAN ARMY OFFICERS ARE EXECUTED FOR TREASON

Four Got 8-Year Prison Terms; Six Found Not Guilty in Chihuahua Military Trial.

By the Associated Press. EL PASO, Tex., Aug. 21.—Names and details of the execution of army officers at Chihuahua City on charges of treason have been given today in a special dispatch to the Herald from Chihuahua City under date of Aug. 18. The dispatch says that, after three days of investigation, the Military Court appointed by Gen. Manuel Diez de Leon, judge of the 18 men under charges gave a verdict sentencing to death Col. Francisco Arzate-Col, Epigenio Martinez, Capt. Manuel Verrero, Capt. "Eusebio" L. Lucero and Capt. Manuel Balda.

Col. Gregorio Nunez and Herrera were sentenced to eight years' confinement and the same penalty was given Melcarado, Robles and Capt. Patino. Two captains and four lieutenants were found not guilty.

"At 7 o'clock this morning," the narrative continues, "the condemned men were shot at the foot of Cerro Santa Rosa before 2000 soldiers of the garrison and hundreds of people who went to see the spectacle."

Arzate, when the firing squad was going to kill him, cried: "Viva Villa," and Martinez also, when the squad was ready to fire, cried: "death to Carranza." Gen. Alanis was freed at the beginning of the proceedings as he proved he was not implicated with the plotters.

"During the investigations, Arzate confessed he was in correspondence with Villa since March of this year and was commissioned to foment a revolt in this city, receiving money for that purpose."

WOMAN IS FOUND LYING UNCONSCIOUS UPON SIDEWALK

23-Year-Old Cashier of Alamac Hotel, Discovered With Shoes and Stockings Missing and Bruised.

UNABLE TO RECALL EVENTS OF NIGHT

Tells Policemen She Started to Take Street Car and Remembers Nothing More—Lay Several Hours.

Mrs. Belle Sutter, 23 years old, cashier at the Alamac Hotel, Fourteenth and Chestnut streets, was found lying on the sidewalk at Eighth street and Park avenue at 5 a. m. today, without shoes or stockings, her dress torn and soaked with rain and suffering from bruises on the head, arms and neck.

At the city hospital physicians who examined her said the bruises indicated the woman had been beaten. She was unable to tell what had occurred.

She said she left the hotel at 11:30 p. m. to go to the home of an aunt in South St. Louis to spend the night. She had \$35 in her possession. She could not tell what happened after that.

When policemen found her she had no money. The shoes and stockings had been taken also. From the condition of her clothing, police say, the girl apparently had lain where she was found for several hours. The rainstorm occurred shortly after 2 a. m.

Three Women and Man Held Up. A party of three women and one man reported to policemen early today that they had been held up and robbed by three armed men near Twenty-third and Biddle streets. After hearing the story, policemen arrested one of the women pending investigation. In the party were Mrs. Elizabeth Romano, 22, 1022 North Twenty-second street; Mrs. Mary Ryan, 1413 North Thirteenth street; Kate Bruley, 1016 North Eighteenth street, and Julius Quirk, 2135 O'Fallon street.

Quirk said he was taking the women to a restaurant for a mid-night lunch, when the three men armed stopped them and demanded their money. Quirk started to fight and was knocked down by a blow on the head from a revolver. The curly-haired woman fought also and was struck in the jaw, she said. Mrs. Romano said she was robbed of \$15 taken from her stocking. Mrs. Ryan said she was robbed of a diamond ring.

Policemen investigating the affair were told the quartet had been together in what the police call the "Monkey Cage," a saloon and cafe at Twenty-third and Biddle streets, had had left the place a few seconds before the reported robbery. They also learned that Quirk and Romano, Mrs. Romano's husband, had had some words in the same place a week ago. Mrs. Romano was held for investigation. Quirk said the men who knocked him down were negroes. The others say they were white men.

Call Through Furnace Pipe. Burglars who ransacked the home of Doddridge C. Nevitt, 4500 Clemens avenue, some time during the last two weeks in the absence of the family, crawled through a furnace hot-air pipe to get from the basement to the first floor, removing a ventilator in the floor. They apparently worked at their leisure, for they gathered up linens, clothing and silverware valued at \$200, added six quarts of whiskey from the Nevitt private stock to the bundle and departed. The burglary was discovered when the family returned yesterday.

The home of Henry Sikemeler, 3473 Washington boulevard, was ransacked by burglars in the absence of the family yesterday and \$275 in jewelry and clothing taken.

Mrs. William Fay, 5330 Pershing avenue, asked policemen to investigate the theft of a diamond brooch valued at \$200 from her apartment. Followed by Pickpocket. Kassial Harris, 1113 Morrison avenue, believes he was followed by a pickpocket from the Lafayette-South Side Bank yesterday after he had drawn \$375. He boarded a Broadway car and rode to Branch street and when he alighted he discovered the loss of his purse, which he had placed in his hip pocket. James Watt, 408A North Euclid avenue, reported he had been robbed of a purse and \$40 while on a Broadway car riding from Baden to the Taylor avenue car loop.

ASK FOR FORD'S 6 CENTS

Lindenwood Would Pay Carfare if Lines Ever Are Extended. Lindenwood has a plan for investment of the 60 award to Henry Ford in his damage suit for \$1,000,000 against the Chicago Tribune. Lindenwood would have Ford donate the 60 to that community to pay the carfare of the next child born there, when the United Railways extends its lines, if ever.

In a letter to Ford, Nils Grant, member of the Lindenwood Improvement Association, points out that for 30 years the community has "pleaded, fought, prayed and begged for street car service," but in vain, and asks Ford to donate the 60 award to him in the famous suit. "This sum," Grant's letter says, "to be used as carfare for the first."

Admits Robbing Roommate. John Mattie, 18 years old, of 1910 South Third street, who was arrested last night, admitted, policemen say, having robbed a trunk belonging to his roommate, Roman Volkak, of \$77.45 and a check for \$22.75 yesterday. When the robbery was reported Mattie was not suspected until policemen learned he had opened a bank account yesterday afternoon by depositing \$50. After his arrest, policemen say, he admitted taking the money and check and said he had deposited some of the cash for future use. The check, he said, he had cashed at a jewelry store at 1620 South Broadway when he bought a ring for \$7.50 and was given \$15.55 cash. He indorsed his roommate's name to the check, he said. He had \$4.19 in his pockets when arrested and was wearing some new clothes bought with the rest of the money.

Food Held at Key West Released.
By the Associated Press.
TAMPA, Fla., Aug. 21.—Twenty-seven carloads of food, ordered held up at Key West en route to Cuba from Jacksonville, have been or-

dered released. Attorney-General Palmer wired District Attorney Philip that there was no evidence that it was being hoarded or was being sent away to prevent an investiga-

\$1800 AN ACRE FOR BERRIES
Mayes Says Some Missouri Growers Received That Amount.

Special to the Post-Dispatch.
JEFFERSON CITY, Aug. 21.—Jewell Mayes, secretary of the State Board of Agriculture, gave out a statement today to the effect that land in Southwest Missouri devoted to the culture of strawberries had harvested as high as \$1800 an acre this year. He credits the statement to W. T. Heathman, former member of the lower house of the Missouri Legislature from Randolph County. This information was supplied as the result of a controversy between residents of Southern Illinois and Missourians over the productiveness of the soil in different parts of the two states. Southwest Missouri surpassed Illinois. The land in Southern Illinois is selling at \$350 an acre.

NATIVE HAWAIIANS
WELCOME DANIELS

Accidental Killing of Seaman and
Operation on Rear Admiral
Mar Secretary's Trip.

By the Associated Press.
HONOLULU, T. H., Aug. 21.—Ancient Hawaii, through the sons and daughters of its warriors, welcomed Secretary of the Navy Daniels and his party and the officers and men of the dreadnought New York, which arrived here yesterday. The Hawaiians, attired in native costumes, including priceless coats of feathers and leis, greeted the Secretary and his party when it landed. As the visitors came ashore they passed between columns of warriors carrying spears. Rear-Admiral Albert M. D. McCormick underwent an operation for appendicitis at sea last Monday. It became known when the dreadnought reached here. His condition was reported as dangerous. Apprentice P. T. Smith of Chicago was crushed to death aboard the New York by the swinging of a 14-inch gun turret.

NEW \$100,000 BANK TO BUILD
ON DELMAR AND LAUREL SITE

Institution Organized by Group of St. Louisans Will Be Known as Hamilton State Bank.

A new bank to be known as the Hamilton State Bank, with a capital stock of \$100,000, has been organized by a group of St. Louisans. William F. Evans, general solicitor for the Frisco railroad, will be the principal stockholder.

The bank will be at the southwest corner of Delmar boulevard and Laurel street, where a two-story stucco and brick building will be erected by the Angela Realty Co. The bank has taken a 20-year lease on the building, which will be completed in three months.

The president of the new institution is Junior C. Figge, who is vice president and secretary of the West End Bank. Other officers are Albert Smith, first vice president; George E. Deutschman, cashier of the West End Bank, second vice president; Mrs. Juanita Deutschman, assistant vice president. The directors are William F. Evans, Robert Smith, president of the Smith Bros. Development Co.; Ernest A. Green, an attorney; Junior C. Figge, August Heman, president of the Heman Construction Co., and Joseph Kohn, president of the L. Kohn & Sons Meat and Grocer Co.

ONLY ONE CHICAGO THEATER
REMAINS OPEN IN STRIKE

Walkout of Actors, Stage Hands and Musicians Leaves Other Houses Dark.

By the Associated Press.
CHICAGO, Aug. 21.—Only one of the big downtown theaters where the "spoken" drama is produced remained open today. On account of the strike of actors, stage hands and musicians, there is little chance of the closed houses being reopened for tonight, according to the leaders in the movement against the Producing Managers' Association. Even the managers of the houses affected said the strike lines seemed to be tightening.

The one big downtown theater which is not "dark" had a brief strike experience just preceding the matinee yesterday, when its stage hands and musicians went out along with those at other houses. It is the Olympic, where Fiske O'Hara is appearing in "Down Limerick Way." Shortly after the walkout it was found the management is not affiliated with the Producing Managers' Association, and when this was discovered the stage hands and musicians returned for the night performance.

YOUNG MATRON DIES IN CHINA

Word of Death Is Received in East St. Louis by Father-in-Law.
Mrs. Helen Wilson Schleuter, 22 years old, died Aug. 9 at Nainpoo, China, according to a cablegram received last night by her father-in-law, A. G. Schleuter of 401 Collinsville avenue, East St. Louis. Waldo Schleuter, the young woman's husband, was sent to China as district manager for the Standard Oil Co. at Nainpoo two years ago.

Mrs. Schleuter was Miss Helen Wilson of Chicago. She and Schleuter were married in Shanghai, China, last October. Miss Wilson traveling there from her home to meet Schleuter.

COSTS \$6.60 TO COLLECT \$1.75

Belleville Man Finds Litigation Is Expensive.

James Frazer of Belleville found it expensive to go to court. It cost him \$6.60 to collect \$1.75. He brought suit in Justice Wangelin's court against the Remmert Manufacturing Co. for \$115.90 he said was due him as wages as a night watchman and for other work. He demanded a jury and had to advance \$6.60 as jury fees. After the evidence was heard the jury awarded him a judgment for \$1.75.

MEN! Come to Vandervoort's Tomorrow
and See the Correct Models for Fall Wear

Nearly every day brings shipments of new Fall and Winter clothing for men and young men—tailored in the very newest styles and made of specially selected materials by clothiers with a nation-wide reputation for quality.

We are preparing for the greatest Fall and Winter clothing business in our history of 69 years of quality merchandising.

When you buy a suit of clothes, buy a good suit, a Vandervoort suit—and in so doing you practice economy, because quality clothing wears longer and holds the shape better, because the right kind of materials are put into these suits.

\$35 \$40 \$50

Gabardine Raincoats are also worn as light-weight topcoats for early Fall and the milder Winter days—it's a useful garment, serving two purposes. We are showing the newest models at \$30 to \$45.

Sale of Tropical Suits, \$9.85 and \$12.50

We have assembled odds and ends in Men's Summer Suits, broken sizes and various styles; if you can be fitted this is a splendid opportunity.

Smartness and Simplicity Combine in the
Misses' New Autumn Suits and Frocks
Suits, \$35.00 to \$285.00

Heatherbloom, Velour, Silvertone, Tricotine, Peach Bloom, Duveltyne and Duvel de Laine—all in Fashion's favor this Fall and all beautiful materials. These are the materials the Suits are made of. And you may select such interesting Fall shades as Dragon Fly, Bressellien, Bark, Poilu, Bordeaux, Oxblood, Taupe—or dark blue, brown or black.

As to style—they have been most attractively fashioned and many smart models are shown.

Frocks From \$17.50 to \$110.00

For school and street wear, the new serge and tricotine Frocks will be most smart and serviceable. The new wool embroidery is shown, artistically designed, on many of these Dresses. They have the new shoe string belts and, of course, are made on straight lines.

For afternoon or informal wear there are beautiful satins and tricolettes, designed in many charming and youthful models. New ideas are shown in collars and cuffs—and other trimming features. Fringe, as well as wool and gold thread embroidery, has been delightfully used.

IF YOUR BLOOD IS YOUR LIFE

How Necessary Is Pure Blood to Your Good Health.

Pure blood is as necessary to your good health as the air you breathe, the food you eat and the water you drink.

When the blood becomes clogged with impurities, you suffer from constipation, your nerves are weakened, your head aches and you feel generally run-down and exhausted.

The best and quickest way to cleanse the blood of the impurities which cause the trouble is to take the treatment prescribed by a successful physician for his patients.

This liquid treatment, ready prepared, is known as Prescription C-2223. It is taken in small doses because it is concentrated, and being readily absorbed, cleanses the blood of the impurities which cause your ill health. After using Prescription C-2223 for a short time, your skin will have that glow of health, indicating that your body is being nourished by pure red blood.

Prescription C-2223 contains no mercury, opium, morphine, chloral or strychnine. It is for sale by most good drug stores at \$1.50 a bottle, or the C-2223 Laboratory, Memphis, Tenn., will mail to you on receipt of price. Clip and mail this advertisement for literature.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching, torture and relieve skin irritation and that makes the skin soft, clear and healthy. Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

NEGRO HELD FOR DEATH OF GIRL HIT BY TRUCK

Coroner's Jury Returns Verdict of Criminal Carelessness Against Driver of Van.

A verdict of criminal carelessness was returned by a Coroner's jury today against Charles P. Whitlor, a negro, 29 years old, of 2529 North Taylor avenue, holding him responsible for the death of Grace Burke, 6 years old, 3011 North Union avenue, daughter of Police Sergeant Patrick Burke, who was run over by a moving van auto truck driven by Whitlor at Union and St. Louis avenues, at 5 p. m. yesterday. Her skull was crushed and she suffered internal injuries.

Ten witnesses testified at the inquest that they were attracted to the truck before the accident by the noise made by it and another truck belonging to the same company, and by the speed at which the trucks were being driven east on St. Louis avenue.

They said that Grace was running from the north to the south side of St. Louis avenue, on the west side of Union, and that she collided with the side of Whitlor's truck and was thrown beneath the rear wheels. The verdict was based on the testimony that Whitlor was driving at high speed.

Whitlor, on the advice of counsel, made a statement denying that he was driving at a speed greater than about seven miles an hour. He said he slowed up on approaching the intersection of the streets and started again when he saw that the crossing was clear.

Although policemen testified that he told them, at the time of his arrest, that his brakes were defective, Whitlor, on the witness stand, denied that such was the case. He said that he did not attempt to apply the brakes until he heard witnesses yell that he had run over a girl. He experienced no trouble, he said, in stopping his car. He stated that he did not know he had struck the child until his attention was called to the fact by the cries of several witnesses.

The death brought the motor vehicle fatalities since Jan. 1 to 52, as compared with 53 for a corresponding period last year.

Samuel Pappas, 39 years old, of 7067 Delmar boulevard, a restaurant keeper, was knocked down by an automobile driven by Philip Schildknecht, a grocer of O'Fallon, Ill., at Eighth and Locust streets, in the afternoon, and suffered internal injuries and lacerations of the scalp. He was taken to the Aladdin Brothers' Hospital, where physicians said his condition was serious. Schildknecht was released on bond.

BODY OF WOMAN WHO FAILED TO RETURN TO HOME IN MERAMEC

Verdict of Suicide Rendered in Case of Detective's Mother-in-Law.

Missing Since Tuesday.
The body of Mrs. Jennie Murphy, 60 years old, 4041 Maffitt avenue, mother-in-law of Detective Harry Marsen, was taken from the Meramec River, 300 yards below the landing at Meramec Highlands, at noon yesterday. A verdict of suicide was rendered by a coroner's jury.

Mrs. Murphy went there with a friend Tuesday, but did not return home. Her hat and spectacles were found on the bank, and a search was begun. Members of the family said she had shown signs of being mentally unbalanced for some time.

Strange Looking Animal in Bananas.
Mike Mercurio, a Belleville fruit dealer, yesterday found a strange looking animal in a bunch of bananas. It is as big as a rat, has a face like a possum, feet like a monkey, and a long tail. The body is covered with hair, but the tail is bare. The creature was curled up in a nest under the fruit next to the stalk. The bananas were shipped from South America.

Senate Confirms Palmer.
By the Associated Press.
WASHINGTON, Aug. 21.—The nomination of A. Mitchell Palmer as Attorney-General was confirmed late yesterday by the Senate, marking the end of a fight against his appointment which began at the last session of Congress and which centered about his administration of the office of Allen Property Custodian.

To Our 42,000 Tire Dealers

Don't wait for the "word of mouth" advertising, or for our own announcements, to reach all of your customers about the Special Molded 3½-in. Firestone Tire.

Every user of 3½-in. sizes ought to know that he can now get the tire of standard quality at prices he has paid for the "bargain" or "shopping" kind.

The heavy buying season is on. Spread this news in your own locality over your name. The car owner will appreciate your effort to give him this advantage promptly.

Put a sign in your window reading as follows or, of course, as big as you can make it. That will bring them in and give you a chance to explain why Tires and Tubes of Firestone quality can be sold at these prices.

Firestone 3½-inch Special Molded Tire At These Prices

	Non-Skid	Gray Tube
30 x 3½	\$18 ⁰⁰	\$3 ²⁵
32 x 3½	\$21 ⁰⁰	\$3 ⁷⁰

6,000 Miles

Be sure to present the following reasons, because some car owners can hardly believe that tires and tubes of first quality are offered this low:

Firestone financial resources, \$73,000,000;

Firestone organization in Singapore selecting rubber and shipping direct, insuring first quality and saving 3c a pound;

Firestone directing fabric mill to insure highest grade and uniform supply at lowest possible cost;

A \$7,000,000 factory separate from the main plant, devoted exclusively to 3½-inch tires and tubes;

A daily capacity of 16,000 tires and 20,000 tubes, all 3½-in. size;

Over 90% of the organization own stock in the Company.

The Firestone system of branch houses cuts the cost of sales and service. The car owner gets the benefit in more mileage for less money.

You know what all these things mean in terms of manufacturing economy. Tell them to car owners now more than ever.

They will understand quick enough that these low prices are possible only because Firestone is years ahead of ordinary practice in organizing, in manufacturing ability and equipment.

Spread the news in your locality. Your customers deserve this tire. You deserve their patronage. It's just one more big chapter in the Firestone program of most miles per dollar.

This is the
Firestone
year

HIGHER PAY URGED TO HOLD NAVAL OFFICERS

Acting Secretary Roosevelt to Ask Congress for Increases in View of Resignations.

By the Associated Press.
WASHINGTON, Aug. 21.—With the resignations of more than 300 permanent officers of the regular navy already submitted to the department and more arriving daily, Acting Secretary Roosevelt today began work on proposed legislation to be submitted to Congress suggesting substantial pay increases for officers and enlisted men of the navy and marine corps. Present pay tables became effective in 1908 and have not been revised upward since, although civilian pay has increased substantially in almost every branch of work.

High ranking officers who have given careful study to the situation believe the efficiency of the navy is seriously threatened. Most of the resignations have come from the younger officers in the lower grades, the men to whom the country looks for the leadership of its sea forces in the years to come.

These officers, receiving from \$1700 to \$3000 a year, most of them Annapolis graduates, capable of earning much higher salaries in civilian life, say they find it impossible to support their families on their pay. In this connection one Rear Admiral called attention to the many classes of ordinary labor in civilian life who earn larger salaries than do naval officers, who are responsible daily for many lives and thousands of dollars' worth of Government property.

For the present, Acting Secretary Roosevelt said today, no action will be taken on the resignations now on file pending attempts to readjust the pay tables. Already short nearly 2000 officers on the navy's peace time strength, Roosevelt said that unless the salary revision is obtained the navy faces the awkward choice of retaining a large number of officers against their will, with subsequent discontent and dissatisfaction, or accepting the resignations.

Annapolis graduates have been trained at a Government expense of more than \$20,000 each, he said, and even though other candidates might be obtained in the future to take their places, it would take years to train them.

More resignations are now on file than had been received from the entire regular navy in the last 30 years. Since 1899 the average has been seven a year. Among resignations now awaiting action are those of more than 75 officers of the line, 191 doctors, 25 chaplains, a score of supply officers and nine naval constructors.

Roosevelt said a similar condition of low salaries applied to warrant officers, noncommissioned officers and enlisted men, and that only legislative action can solve the problem. He expected to limit recommendations to Congress next week.

FIRES 5 SHOTS AT AUTO THIEVES

Car Owner Frustrates Attempt to Steal His Machine.

E. H. Suther, 6414 Cates avenue, University City, last night fired five shots at two men who tried to drive away with his automobile, which was standing in front of his home. The thieves got away in another machine.

Suther had just left his car and was entering his home, when two men drove up in another machine. One of the occupants jumped into Suther's car and started the engine. Suther got a revolver and fired two shots at the man in his machine, who jumped back into the car in which he arrived and drove away. Suther fired three more times at their car.

CHINESE SHOTS AT PROWLER

Police Arrest Man Found on Roof of Laundry.

When Jew Woon, proprietor of a laundry at 2302 Olive street, awakened in a rear room in the laundry at 11 o'clock last night and saw a hand reaching down from the roof trying to open a transom on a rear door, he got his revolver and fired at the hand. The hand was withdrawn and there was quiet until the arrival of policemen who had heard the shot.

The laundrymen pointed to the broken transom and waved his arms. Policemen followed the direction indicated and found a man who calls himself William Plannery, 26, of 6713 Manchester avenue, on the roof of the place. He was not injured. He was held for investigation.

NAVAL MAN COMMENDED

Son-in-Law of St. Louisian Saved Comrade From Drowning.

James A. Green, 23 years old, son-in-law of Mr. and Mrs. C. R. Evans, 3538 Washington avenue, who has been at the Great Lakes Naval Station since his enlistment in June, 1918, was commended by the naval authorities for his gallant conduct last Thursday at Lake Bluff Beach, Chicago, when he rescued a drowning sailor comrade under great difficulties. Green, who is an excellent swimmer, weighs about 200 pounds. He is a graduate of Central High School.

NUXATED IRON

Helps Make Strong, Sturdy Men and Beautiful, Healthy Women

3,000,000 People Use It Annually

As a Tonic, Strength and Blood-Builder

MAKE THIS TEST
If you are not well or strong you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people, who were ailing all the while, have most astonishingly increased their strength and endurance in 2 weeks' time in many instances.

Manufacturers' Note: Nuxated Iron which is prescribed and recommended by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the other inorganic iron products it is easily assimilated and does not irritate the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. Sold by Judge & Druggist Co., 1001-1003 N. 2nd St., St. Louis, Mo.; and by all druggists.

KNIGHTS OF COLUMBUS OFFER SCHOLARSHIPS FOR SOLDIERS

Courses in 41 of Leading Colleges Will Be Given Veterans of World War.

By the Associated Press.
NEW YORK, Aug. 21.—One hundred scholarships in 41 of the country's leading educational institutions will be offered by the Knights of Columbus to American veterans of the world war, regardless of religious creed, as part of the order's work in helping get former service men back into serious educational pursuits. This announcement was made here by the order's Committee on War Activities.

The scholarships will include tuition, books, board and lodging for successful applicants, who must file their applications on or before Sept. 1 with the supreme secretary, Knights of Columbus, New Haven, Conn. The K. of C. offer comprises 50 technical, scientific, mining, agricultural or foreign service scholarships in the following institutions: University of California, Sheffield Scientific School (Yale), University of Illinois, Purdue University, Louisiana State University, Massachusetts Institute of Technology, Worcester Polytechnic Institute, Michigan Agricultural College, University of Minnesota, University of Missouri, Stevens Institute of Technology, Polytechnic Institute of Brooklyn, Toledo University, Colorado School of Mines, Montana State College of Agriculture, Ohio State University, West Virginia University and Georgetown University Foreign Service School.

Fifty scholarships also are offered for complete academic course in the following: The Catholic University, Washington, D. C.; Holy Cross College, Worcester, Mass.; Loyola University, Chicago; St. Paul University, Dubuque College, Loyola University, New Orleans; Fordham University, Manhattan College, Mount Angel College, Oregon; Villa Nova College, St. Louis University, St. Thomas College, St. Paul; Santa Clara University, California; Niagara University, University of Dallas, Detroit University, Mount St. Charles University, Creighton University, Omaha; Duquesne University, Pittsburgh; and Gonzaga University.

KOREANS ARE GRANTED LOCAL SELF-GOVERNMENT BY JAPAN

Imperial Decree Announces Reforms in Preparation for Home Rule; Civil Rights Restored.

WASHINGTON, Aug. 21.—Local self-government for Korea and reforms in preparation for home rule, are announced in an Imperial rescript issued in Tokyo and received at the Japanese embassy here.

The military Government has been displaced and succeeded by a civil one. The military gendarmes, so much under criticism of late, is to be replaced by a civilian police force entirely under civilian control. A system of village and town municipal Government based on popular suffrage also is to be undertaken.

Possibly most important of all, from the Korean point of view, the rescript by the Emperor of Japan provides that Koreans shall have the same privileges and legal rights as Japanese. Heretofore, Japanese have been a privileged class.

Baron Saito, former Minister of State, and one of the best known of Japanese statesmen, becomes Governor-General, succeeding Marshal Hasegawa, Midzuno, former Minister of the Interior in the Kato Cabinet, succeeds Director-General Yamagata in the administration.

PUBLIC SERVICE COMMISSION WORKING ON U. R. VALUATION

Members Deny That There Has Been Any Cessation in Preparation of Report.

Special to the Post-Dispatch.
JEFFERSON CITY, Aug. 20.—Members of the State Public Service Commission stated today that there had been no cessation of work on the part of their experts and engineers in making a valuation of the property of the United Railways of St. Louis. Men have been at work on this valuation since last February.

A story was printed Tuesday in a St. Louis afternoon newspaper to the effect that the work of making the valuation has been delayed because Gov. Gardner held up \$30,000 of the fund appropriated for support of the commission during this year and next year. The Governor did withhold this much out of the total appropriation of \$258,800, but still left the commission \$17,000 more than it had during the years 1917 and 1918.

Commissioner Blair said today that the work of the experts and engineers is going right ahead and will not be interrupted. J. L. Harbo, in charge of the work, it appears that the accountants are practically finished, but the engineers have much yet to do and it will probably be early in the fall before the full report is filed with the commission.

MRS. DE MUMM WANTS HER U. S. CITIZENSHIP RESTORED

Kansas Woman Separated From German Husband Fears Loss of Money

Special to the Post-Dispatch.
WASHINGTON, Aug. 21.—Congress is asked by a special resolution introduced yesterday by Senator Arthur Capper of Kansas to restore American citizenship to Mrs. Frances Scoville de Mumm, a Kansas girl, who, in 1912, married Walter de Mumm of the wine-making family of France and Germany. She says she will be deprived of a vast sum as a result of the war and the German nationality of her husband, from whom she now is separated, unless haste is had in making her once more an American.

Mrs. de Mumm is a daughter of C. K. Scoville, president of the Citizens' State Bank of Seneca, Kan. Her marriage to De Mumm was in June, 1912. In London, her husband, a German, was then living in France. The couple separated and Frances de Mumm took up residence in Switzerland. Her country residence of Marne was destroyed by German invasion. It was valued at \$200,000. Her property and town house in Paris were sequestered. But Mrs. de Mumm was friendly to the allied cause and she was permitted to remain in France and in turn was denied entrance to Germany when she sought to bring divorce proceedings.

A statement filed with the resolution says a formal legal separation was agreed to in October, 1918. The couple had been living apart three years. The agreement was filed with the American consul at Berne. Under it Mrs. de Mumm was to receive \$1000 a month until the war ended and \$1400 a month when their child was living with her. Walter de Mumm was noted not only as a millionaire merchant, but also as a sportsman, aviator, balloonist and globe circler. He was an aid to Alfred de Blanc, pilot of a French balloon, in the international race at St. Louis in 1909.

**MAN ACCUSED BY BOY SCOUTS
IS DISCHARGED BY JUSTICE**
Vinita Park Resident Was Charged With Pointing Weapon at Troop During Dog Fight.

Walter Boeckstergel of Vinita Park, St. Louis County, who was charged with flourishing a deadly weapon, July 25, today was discharged at his preliminary hearing by Justice Werremeyer of Clayton on the ground of insufficient evidence. Boeckstergel's arrest was on a warrant sworn out by Scoutmaster J. Warren Jones of the Vinita Park Boy Scout Troop, who said Boeckstergel pointed a revolver at members of the troop when they interfered in a fight between Boeckstergel's bulldog and the troop mascot, a terrier.

Boeckstergel said at the hearing that members of the troop went to an automobile standing at the curb in front of the Methodist church, where they were holding a meeting, and got a revolver. The boys said they obtained a wooden jack handle from the machine. Testimony of members of the troop was that Boeckstergel pointed the gun at several of the boys, and said: "I'll shoot every one of you." The trial was the latest chapter in a series of disturbances between Boeckstergel and the Boy Scouts growing out of the bulldog episode.

BUSINESS LOSS IS CHARGED IN SUIT AGAINST LABOR LEADERS

East St. Louis Company Begins Action Involving \$75,000 Against Molders.

Total damages of \$75,000 are sought from two union leaders who attempted to organize and who did call a strike of the employees of the Durbin Automatic Train Pipe Connector Co. in a suit filed today in the Federal Court. The plant is in East St. Louis.

The defendants are Charles E. Markham, organizer and traveling agent for the International Molders' Union, and B. A. McCormack, described as the local leader. It is charged that nonunion workmen were assaulted, followed to their homes and intimidated, and that women workmen were intimidated.

The damages asked are for interruption of business.

Suit was filed for \$25,000 under the Sherman anti-trust law, which provides that the damages shall be trebled, as a punitive measure. The strike was called Aug. 2, and is still in progress.

OCT. 1 WILL BE MOVING DAY ALONG 12TH STREET EXTENSION

City Will Take Over Property Between Chouteau and Park Avenues.

Oct. 1 will be moving day for tenants of the dwellings in the route of the southern extension of Twelfth street, between Chouteau and Park avenues. The city is to take over the property at that time, and owners have been notified by the Street Department to give their tenants the required month's notice on or before Sept. 1.

The property has been taken over through condemnation proceedings, and the damages to be paid to owners of property aggregate \$245,467.50.

When the city took over the buildings on the west side of Twelfth street, as the site for the Municipal Courts Building and City Jail, the tenants continued to occupy the houses, rent-free, for several months, and moved out only when the wreckers arrived to begin work.

Nelson's Hair Dressing

"NELSON'S will make you proud of your hair"

The particular colored people of the United States use Nelson's Hair Dressing

For more than 20 years Nelson's has been sold and recommended by drug stores everywhere. Nelson's makes stubborn, curly hair soft, glossy and easy to manage. It is fine for the scalp, relieves dandruff and makes the hair grow.

It is important to get the genuine Nelson's. Take this advertisement to the drug store and beware to get the genuine NELSON'S Nelson Manufacturing Co., Inc. RICHMOND, VA.

FERROL DAVIS
a colored girl of Tampa, Fla., says there is no hair dressing like Nelson's.
Send us your photograph if you use NELSON'S.

Has Trained Her for Job
in the Business WorldWoman Psychologist Has Already Made Good, Says
Dr. Poffenberger of Columbia University, Be-
cause Studying the Family Has Given Her an In-
sight Into Human Nature—Many Jobs Open to
Her.

By Fay Stevenson.

A WOMAN coming into her very
own? Are we beginning to look
upon her as a psychologist in the
business world as well as in the home?
According to Dr. Albert Poffenberger
of the Department of Psychology at
Columbia University, we are."Woman has always been a psy-
chologist in her home, studying the
mind and the mental make-
up of her family; now she is coming
to demand for such work in the
business world," Dr. Poffenberger
told me as he sat in his la-
zatory and looked out on the cam-
pus which was crowded with sum-
mer students. "She has been study-
ing her husband, her children, the
neighbors and the neighbors' chil-
dren for years. She knows the why's
and wherefores and the ins and outs
of human nature. She knows when
her husband has been playing poker
when little Johnny has played
away from school and gone swim-
ing."All this so-called woman's instinct
to guide her as a psychol-
ogist. When freckle-faced Freddy or
sneaky Pauline wander into the
men's court for some misde-
meanor she is going to get right at
heart of the whole thing. When
this misbegotten Minnie is put
in the probator's hands, she can
do more for her than any
lawyer. In hospitals and public in-
stitutions woman can be kind and
firm, and can be gentle and still
have a certain amount of dis-
tance and she seems to have the
art of getting on with each indi-
vidual case in applying the mentalThere is a great demand for wom-
an psychologists," continued Dr. Pof-
fenberger. "Many opportunities for
men are offered by the study of
psychology; indeed, I might say that
bulk of the examining work is
done by women. Women ex-
aminers are required for the child-
ren's courts, for the probator's
court, and there is constant call for
men who can give mental tests in
hundreds of all sorts. There is a
woman psychologist at Bellevue Hos-pital and one at Randall's Island.
"There is no lack of positions for
trained psychologists in the indus-
trial and commercial fields of today.
Equipped with a knowledge of psy-
chology, the student entering a busi-
ness concern is ready to give trade
tests to determine what type of work
a man is best fitted for and give a
general opinion of the behavior, na-
ture and mental make-up of an in-
dividual. Such tests mean tremen-
dous saving for the employer, since
it is possible thus to eliminate the
unfit before the employer has under-
gone the expense of training, a very
large item in the huge business or-
ganizations of today."Then, too, going back further, the
student is ready to give what is
known as the general intelligence test,
and more and more the pro-
gressive employer is coming to want
his people classified according to
their abilities to advance. Here you
can see woman will be very useful
in judging her own sex. It takes a
woman to know a woman every
time.""I have followed the career of a
number of women psychologists,"
concluded Dr. Poffenberger, "and
compared them to men psychologists,
and while I will not say that the
probation a woman psychol-
ogist can do more for her than any-
one else, certainly done equally as well. The
industrial and commercial houses
praise their work very highly. Women's
keenness combined with her in-
stinct and intuition and good com-
mon sense are of great value in this
special line. If ever a woman's big
chance has come to her it is along
this line of work. The woman psy-
chologist seems to have a field in
which she fits."When we think of women psychol-
ogists and think of the dictionary
definition of psychology—the doc-
trine of the soul—our minds go back
to the days when the Chinese denied
that woman possessed a soul. Ma-
homet excluded women from Para-
dise because he believed they lacked
souls. Yet today we are looking for wom-
an psychologists!The Business of Home Making
An Ironing Machine Which Works 24
Hours a Day.By MRS. CHRISTINE FREDERICK,
Author "HOUSEHOLD ENGINEERING."NE of the chief problems of the
housekeeper in summer is the
laundry situation, which is made
worse by the hot weather require-
ment of more linen. There is a
frequent clean, fresh bed cover-
ing. Time was when we were only
glad to send all the sheets and
linen to the commercial laun-
dry, but some of us who have been
fully following the bills for our
linen have been astounded at the
cost of each for a simple towel,
or for a sheet, on the laundrythe average income we should
spend more than 6 to 8 per cent
laundry, monthly. How can we
within this limit and still have
clean, ironed clothes? Well, be-
cause, we have one of the great
in the mechanical ironing ma-
chine. This is not a mangle, but a
line with a metal roll, covered
with a thick padding, and operated
by power.If you ever stop to think of how
usually is when you iron a large
sheet, tablecloth or sheet, double,
or iron measuring about 6 inches
wide? How many, many times
do you have to track back the small
thing surface to cover the large
one to be ironed? Somebody once
said to look at the way men made
some of housekeeping, and I
don't do so foolish a thing as
a six-inch iron over and over a
square inch surface. Imagine
the waste of time and energy!The ironing machine will iron one
sheet, tablecloth or spread at a single
stroke. It will iron two cases or towels
at the one operation, or, in
practice, it will iron several
sheets and napkins to a per-
fect smoothness as the iron turns
around.It will iron starched and mod-
erns equally well, with a
manipulation of the goods. For
this it is very easy to place the
goods in a wrapper or gown or apron
and machine and iron right up
to the belt; then remove, and run in
starch, beginning from the cuffs,
the backs of the dress and so on.
The country an ironer of this
may be heated solely by gasol-
ine and operated by hand. I should
like to say that about 3 hours would be re-
quired for an average family ironing
family of five or more on this
machine.The cities gas can most easily
be ironed, at a low cost, and in
cities the ironers are in the
the local gas company. They
about 24 an hour to run, de-
pend on the gas rate.
Many of them will last 10 or moreyears, as there is really nothing to
wear out or become out of order. A
good size for the household, which
will carry a large sheet on the
double, costs about \$35, or an aver-
age of \$3 for the first year, after
which there is no upkeep and only a
cost of about 50c a month for gas
or gasoline to heat it with.

ARE YOU SUPERSTITIOUS?

By IMOGENE BURCH.

Farmers' Superstition.

THE moon is one of the great-
est obstacles in the way of
agricultural efficiency," said
a well-known writer on the in-
creased cost of living. And in ex-
plaining that statement he cited a
number of farmers' superstitions:
Beans must be planted while the
moon points up.
Radishes planted in the wane of
the moon will all go to leaf.
All grafting must be done in the
dark of the moon in Maine denied
if hogs are slaughtered when the
moon is decreasing, the pork will
shrivel up when cooked.Although Friday is usually con-
sidered an unlucky day, still many
farmers refuse to plant potatoes on
any other day of the week.Cucumbers, to grow long, must be
planted on the twenty-first day of
the year, the longest day of the year.
Because of these and many other
superstitions connected with farm-
ing, which agricultural specialists
have proven to be without founda-
tion, a large amount of time and
money is often wasted. The truth of the
matter is that, although farmers are
not one bit more superstitious than
city folk, still they scrupulously ob-
serve certain signs and omens.One of these that has more truth
than fiction connected with it is that,
if you can't discover whether the
weather will be fair or cloudy from
some member of the family who
has "barometrical bones," you will
find chickens the best of weather
prophets.

For His Majesty—the Baby

SUMMER means joy to the baby, for he can play in the beautiful outdoors with his woolly lambs, pin-eyed rabbits and other attractive things. This little cape and bonnet will do him for his first party or any unusual occasion in babyland. It is of crepe with real lace and hand embroidery, and under it he wears the softest of linen dresses with real velvet and embroidery.

SAYINGS OF MRS. SOLOMON

By Helen Rowland.

Let the Summer Girl Be Sung in Poem and in Story—But I Know Her
Futility, and There Is No Danger in Her.NOW, My Daughter, there came unto me a damsel of Babylon, arrayed
in dazzling white, and looking fluffier than sea foam and cooler than
an ice cream soda advertisement.And I questioned her, saying:
How now, thou Tempting One? Why lingerest thou in the torrid
town, while the sea and the babbling brooks and the mountain streams
and the waterfalls and woodlands are calling, and the fishermasters of
Babylon are casting their lines in pleasant places, where the fishing is
EASY?"But she silenced me with smiles and answered me softly, saying:
"She, my Mother, Thou hast been deceived by false signs. Let foolish
damsels answer the call of the wild summer resort, and go forth upon
the Love Chase and the Husband Hunt in the land of skimmed milk and
artificial honey.""But as for me, I will cool my forehead in the breezes of the roof
gardens of Babylon, and steep my spirit in the solid comfort of a city
apartment.""For I say unto thee, it is not by the lonely sea nor in the mountain
fastness that the BEST fishing aboundeth and the Good Fish are plen-
tiful; but in the canyons, where they have been left, even as the Family
Cat, to seek their own diversions.""Yes, HERE are all the tired business men, and the lonely bachelors,
and the summer widowers at the mercy of the cabaret girl and the roof-
garden siren, and the flirt in stenographer's clothing.""And shall I leave My Beloved, also, to be devoured and vamped and
annexed by one of these?"

"Nay, verily! For there is a better way."

"I shall let HIM go forth to the summer resort and care not."

"I shall send him upon his way, rejoicing and without fear!"

"For the damsels of the seaside are covered with sunburn and freckles
and ennuil and limp clothes; but the sirens of the city are covered with
powder and perfume and guile and impudence and fluffiness.""Go! Let the Summer Girl be sung in poem and in story; but I
KNOW her futility, and there is no danger in her.""For her locks are always as seaweed, and her nose a shining light.
Her arms are as twin sunsets, and her throat as the Aurora Borealis.""Yes, though my Beloved wandereth beside her in the moonlight, he
shall be perfectly safe!""And, when he returneth from his exile, he will greet me with glad-
ness and rejoicing, exclaiming:"

"Verily, verily, Little One, thou lookest GOOD to me!"

"For I shall be unto him as refreshing as a shower bath after a dusty
motor trip, and more beautiful than a 'Two-seventy-five' sign on a long
road.""Then, let the Foolish Damsel depart in the Open Season and desert
in the hour of danger.""But, as for me, I shall stay upon the JOB!"

Late Lady Daffodil.

March winds and April showers
Bring forth May flowers.BUT Lady Daffodil and Miss Cro-
cus had never heard that little
rhyme so when one morning they
peeped out from their winter cover-
ing and felt the sharp March winds
they quickly pulled in their little
heads and went to sleep again.It was a long time before they
again awoke and this time their
pretty little faces did not feel the
sharp sting of old March but the
soft pattering of April's tears, and the
big sky above them was dark."We are up too early," said Lady
Daffodil to her cousin, Miss Crocus.
"It isn't time for spring, after all.
How strange that we should awake
before our time to bloom."Little Lady Crocus, who always
listened to her cousin, thought it
must be time for her to show herself
even if the tears of April did fall on
her, but she withdrew her head and
went to sleep again.On and on they slept this time
until one morning the gentle South
wind came along and called for them
to awake.Miss Crocus popped out her head
quickly, for she wanted to sleep feeling
she was doing wrong, but Lady Daffodil
did not jump at the call of
South wind. She leisurely slipped on
her spring dress and peeped out to
see if the sun was shining.And then it was that Lady Daffodil
found that she was late and that
Spring was there, and all the spring-
time flowers with her."Where have you been?" asked the
other flowers when at last Lady Daffodil
came forth. "You are always
on time. You overslept, My Lady,
did you not?""I have been late, but I have been up
before this," answered Lady Daffodil.
"Once the sharp wind cut me and I
went back to bed, and once April was
crying so hard her tears fell fast
upon my face and I went to sleep
again.""I was waiting for the sun to shine
so I would not spoil my new spring
dress. I wish April would not be
so full of tears. It is very hard on
us who are waiting for spring to
come and have slept all the winter.""My Lady Daffodil, have you never
heard the little rhyme about the wind
of March and the showers of April?
asked a tall spring flowering bush.And then it was that Lady Daffodil
heard all about the flowers and
bushes singing softly:March winds and April's showers
Bring forth May's flowers.And the next spring Lady Daffodil
was not driven back to bed by the
winds of March or by April tears,
and she, with her cousin, Miss Crocus,
were among the very first to bloom.

One, noticing the unusual pallor on

the soldier made no move to take it,
she asked him if he didn't want it.
Another who lay near said:
"Lady, you don't understand. He
wants it, but can't take it; he has
no hands."Of course the tears came to her
eyes, and she choked when she tried
to speak. But the first one laughed
and said: "Never mind, lady, it's
all right; he hasn't anything on me,

THE ROOM WITH THE TASSELS

By Carolyn Wells,

Author of "The Bride of a Moment," "Faulkner's Folly," Etc.

CHAPTER X (Continued).

"WELL, that'll do. Now, sir,
there's got to be an inquest.
I expected, of course, to
hold it on the two bodies, but since
one's gone, we'll have to do what we
can without it. I don't deny that this
case is beyond all my experience. I've
sent for a detective from New York,
and I'll get all the other help I need.
But I'm all at sea, myself, and I
make no secret of that.""I thought you suspected Eli
Stebbins.""Not of murder! No, sir! Me'n
Eli, we ain't good friends, haven't
been for years, and I wouldn't put
it past him to play ghost to scare
you city people, but murder! Land,
no, I wouldn't ever accuse Eli Steb-
bins of goin' that far.""Have you any definite suspect?"
"I don't say as I have, and I don't
say as I ain't. Truth is, I'm all
afloat. I don't know which way to
turn. Everything's so awful un-
heavenly, you might say. Now,
there's them two Thorpes. Good,
steady-going New England people,
they are, and yet, if I had any rea-
son to suspect 'em, I can see myself
doing so. But, land, there ain't a
shred of evidence that way. Why,
they wasn't even in the room when
the two of 'em died!""Wait a minute," Dr. Crawford
Nobody was in the room at the time
of those two deaths, but our own
party. You don't suspect one of us,
do you?""No, Mr. Landon, I don't. You
ain't a gay crowd, nor yet a fast or
a common crowd. You're all high-
toned, quiet, law-abiding citizen—as
I size you up. To be sure, decent
citizens have committed murder, but
I can't connect up any one of you
with crime in this case. I know Mr.
Bray will inherit the money that
old Mr. Bruce left, and I know that
you're related to them, too, but I
haven't seen one iota of reason to
suspect any one of your crowd. If
I do, I'll let you know mighty quick!
Nor can I hang it on the Thorpes;
nor yet on those girls, they have
in to help. And that's what the in-
quest's for. To bring out, if possible,
some evidence against somebody
so's we can get a start.""I fear you can't get that evidence,
Doctor, for if there were any we
would have found it ourselves. You
have my good wishes, for if it is a
case of murder, committed by a liv-
ing, human villain, we most assuredly
want him apprehended.""He will be, Mr. Landon, take it
from me, he will be!"

CHAPTER XI.

The Hair Speaks Out.

THE days that followed were like
an awful nightmare to the peo-
ple most interested. But at last
the inquest was over, the body of
Giles Bruce had been sent to Chi-
cago for burial, and a strange quiet
had settled down upon the household
at Black Aspen.No new facts had transpired at the
inquest. Though the police tried
hard to fasten the crime on some in-
dividual, there was no definite evi-
dence against anyone. All those who
had been present at the mysterious
death hour told their stories
straightforwardly and unshakably.
All agreed as to the circumstances,
all remembered and related the
story of the Oulja board, which fore-
told the death of two of the party at
8 o'clock."Who was pushing that board?"
the coroner asked."Miss Reid and myself," Tracy
spoke up. "We had been playing
with it for some time, and having
had only uninteresting and trifling
results we were about to lay the
thing aside, when the message came
that two of us would die the next
day at 8 o'clock. Miss Reid seemed
frightened, but I thought at the time
she had spelled out the message
herself, to get up a little excitement.
However, I took the board away
from her at once, feeling that she
was carrying a jest too far. I think
now, that she was innocent in the
matter.""Well, I don't," said the coroner.
"If that girl made up that message,
she had a reason. Probably she was
responsible for both deaths.""Impossible!" cried Tracy,
shocked at this theory. "Why, she
was but a child, she had no thought
of suicide or murder! If she had
faked the message, it was merely in
fun, and because she had tried all
evening to get some message of in-
terest. It is quite possible she made
up the message, but it is not possible
that she did it otherwise than as a
jest.""A growsome jest!"
"As it turned out, yes, indeed. But
either it was in jest—or the mes-
sage was from a supernatural
source."Tracy's eyes were deeply sorrow-
ful, and his face expressed a sort
of awed wonder, that made many
who were present think that after
all there might be something in
these occult beliefs.But not so the coroner. He refused
to consider the Oulja message with
any serious interest, and continued
to ply his witnesses with questions
both pertinent and wide of the mark.Elijah Stebbins was put through a
grilling inquiry. His manner was that
of a guilty man, but no proof of crime
could be found in connection with
the deaths. He day and hour of the two
deaths, he was proved to have been
at his home in East Dryden, beyond
all doubt. Even granting that the
Thorpes, one or both, were in his
employ, there was no reason to sus-
pect them. If they had put poison in
the cakes or in the tea, it must have
been done in the kitchen, and there-
fore would have affected the whole
party. Suspicion must fall, if any-
where, on the members of the house-
party who were present at the hour
of 8 o'clock on the fatal day.(To Be Continued Tomorrow.)

Put, backing up Dempsey's view of Slapper Willie, we urge the following extract from a San Francisco newspaper:

—It was the second time his opponents had died in matches with him and he thought it time to retire. Since he must wrestle with the business game, he thought he will kill himself. He is a son of a gun who has made amusement enterprises in India and China. He has a fortune for his holdings and he is making \$300,000.

Failure of the Dempsey show to attract the expected returns from the box office need not shake up the plans for the selling for the play of Dempsey. The present plan is to rent the Dempsey play acts as deemed desirable. The Dempsey play acts will be rented as a large part of "Dempsey's own show," as Mr. Kerns explained.

The next step in the troupe's tour is to visit the towns of Detroit, where a clean-up is said. Other large population centers visited in turn.

FOR WATERS' show see column 2.

Chicago at Philadelphia.

MORE TRUTH THAN POETRY

By James J. Montague.

THERE MUST BE SOME OF IT LEFT OVER.

When a town in the State of Kentucky went dry The officers emptied the whiskey supply. In a swift little stream, and the fishes therein Partook of the same with a welcoming grin. Next evening a person named Casey pulled out Of the murmuring waters a sizeable trout. He ate it that night, and—to make the tale short—Turned up with a tide in the morning in court. At least Mr. Casey was free to admit That this was the way that he chanced to be lit. But the Judge didn't think that the story was true, And neither, dear reader, will you!

The corn in a silo on Hennessy's place Turned sour and "worked" (as is often the case). The cow ate the corn, and the milk in the pail That evening was flavored somewhat like Scotch ale. When Hennessy drank some for supper, with bread, He found that it suddenly went to his head. So he cranked up his flivver, and, scorching through town, Ran a couple of sheep and a Constable down. At all events, this was the gist of his tale. That he told to the Sheriff who put him in jail. But the Sheriff was sure that the yarn was a lie, And so, gentle reader, am I!

An apple tree grew on a brewery site And burgeoned and fruited, and one autumn night The Peterson kid, who was wandering by, Took some of the apples down home for a pie. Next morning the Petersons—numbering nine, Came issuing forth in a wavering line. Their voices upraised as they sang to the moon. In clamorous accents a loud Swedish tune. And when sundry neighbors had questioned them why They noted that way, they replied, "Apple pie." But the stall didn't go in the town worth a cuss, Nor will it, dear reader, with us!

THE ONLY THING LACKING.
The railroad employees who are going to operate the lines themselves will, of course, divide the profits. All they need now is somebody to divide the losses.

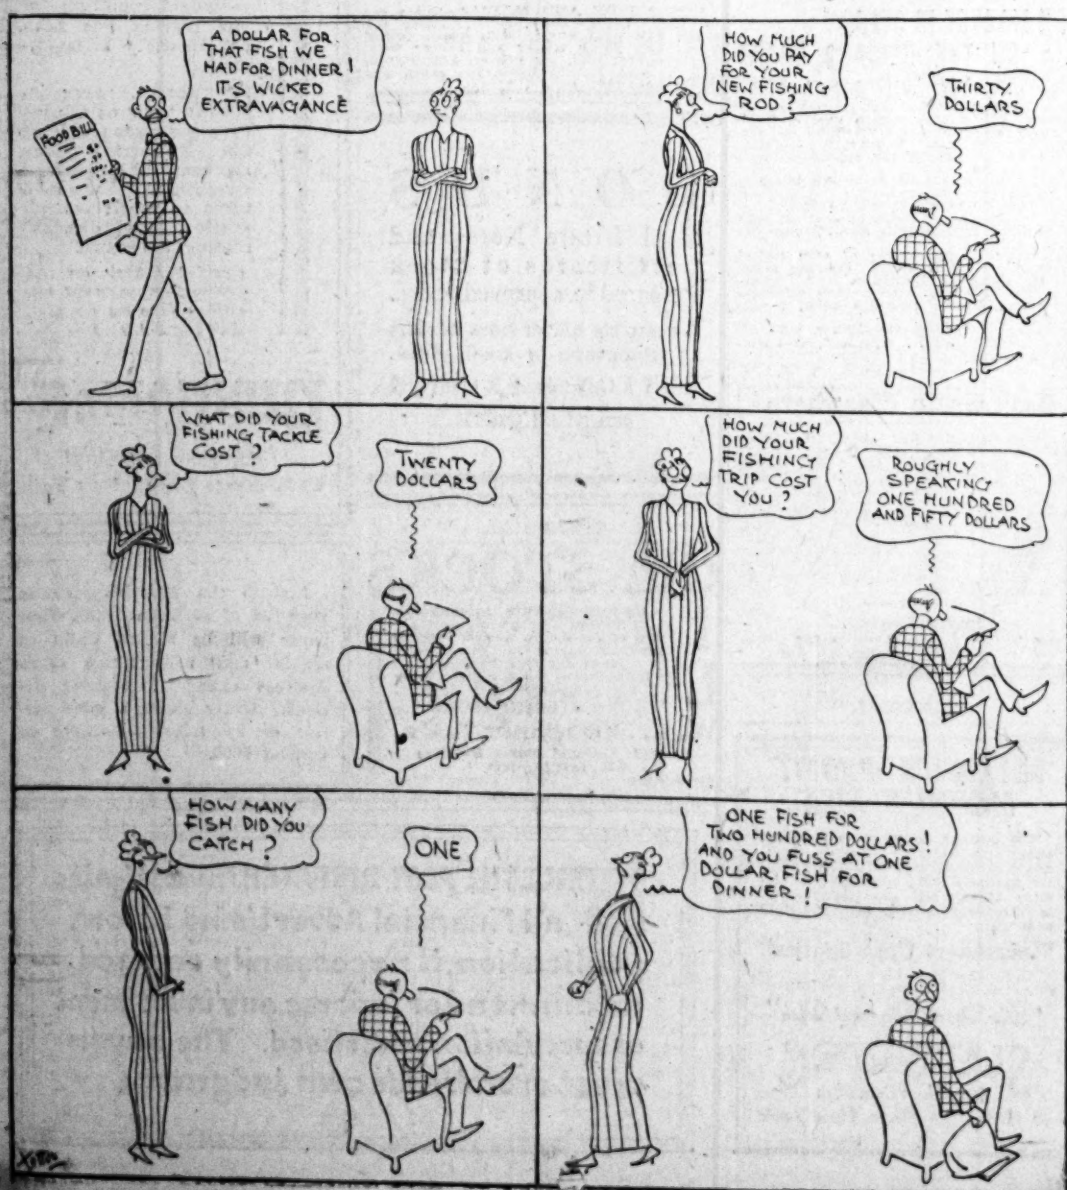

TRUE TO FORM.
The German officers who are committing suicide are merely proving their loyalty to a Vaterland which committed suicide before them.

POSSIBLY.
Perhaps, if we waited awhile we would discover that the Chinese wanted something in China, also. (Copyright, 1919, by Bell Syndicate, Inc.)

Query.
Knicker: "Well my dear?" Mrs. Knicker: Can the league for peace keep your neighbor from offering your cook a dollar a month more?—New York Sun.

He Took It.
"I was put to work on the road when the boss had told me I was to have my choice of work." "He did?" "At least I understood him that way. He said, 'Take your pick.'"—Baltimore American.
